

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

SAN FRANCISCO.

THE FULL SET OF WORKS WILL CONTAIN ONE HUNDRED AND FIFTY
THOUSAND NAMES. THE ONLY DIRECTORY EVER PUBLISHED
ON THE PACIFIC COAST IN THE INTEREST OF AND UNDER
THE PATRONAGE OF THE FARMING COMMUNITY.

The Hand-Book and Directory OF THE PACIFIC COAST.

ISSUED IN SETS OF COUNTIES.

Containing a full List of Names of Permanent Residents, Business Men, Mechanics, Farmers and Laborers. A subscription is not necessary for the insertion of a name, as ALL Names will be given, whether parties become subscribers or not.

Each Name, Occupation, Business Location, Residence, and Town or Post Office Address, will be given in tabulated form, arranged under specific heads.

There will be a portion allotted to a description and history of each county, enumerating its interests; of each town, village and hamlet, as well as every valley of importance, with a map of each county.

It will also contain a list of Post Offices of the Coast, Wells, Fargo & Co's Offices. Money Order Offices, and Statistics, such as I may from time to time be enabled to obtain, which may be deemed useful to the general public.

Every name is solicited personally by my agents, and errors are thus largely avoided.

As an Advertising Medium this cannot be excelled.

Obtaining a large circulation among the farmers, renders the patronage of interior merchants a matter of absolute certainty. The fact of their being fepresented makes the medium equally as valuable to the wholesaler.

Entered according to Act of Congress, in the Year one thousand eight hundred and seventy-five,

By L. L. PAULSON,

In the Office of the Librarian of Congress, at Washington.

PREFACE.

IN compiling the second series of the Hand-Book and Directory, for the Counties of Santa Clara, San Benito, Santa Cruz, Monterey and San Mateo, I have endeavored to obtain and give the correct name and residence of all permanent inhabitants, noting occupation, location and postoffice address of each.

Much care has been used in obtaining the statistical information, and yet it has been impossible to avoid all errors. These, however, are comparatively few, and will lead to still more thorough and careful work hereafter.

In order to make my work equally acceptable to the merchant and farmer, the resident and the tourist, I have added a complete description of each County, City, Town, Village, Hamlet and Farming Centre; also of the Watering Places and all points of natural attraction. For the tourist and invalid who may visit California for pleasure, or for sanitary reasons, this feature of my book, I am convinced, will be of great utility.

I desire also to inform the public that this work is one of the initial numbers of a series which will form, when complete, a Hand-Book and Directory of the State, engrossing the names of all residents.

I hope to have the support and patronage of the public in this undertaking, and shall always strive to merit it by making my publications valuable through their completeness and reliability.

THE PUBLISHER.

The great improvements that the WEED FAMILY SEWING MACHINE CO MPANY have made on their Machines in the last year, enables them to put before the public the BEST FAMILY Machine in the market. See them before purchasing elsewhere.

T. H. PORTER,

Agent for Lake and Napa Counties.

A. MEAD & CO.,

152 NEW MONTGOMERY STREET, SAN FRANCISCO, General Agents for the Pacific Coast.

POST OFFICES OF THE PACIFIC COAST.

County-seats are printed in *italics*, the asterisk (*) denotes money order offices, and CAPITALS and *italics* indicate the location of Wells, Fargo & Co's offices.

TABLE OF RATES OF DOMESTIC POSTAGE.

TABLE OF RATES OF DOMESTIC POSTAGE.

The following are the rates of postage on Domestic Mail. Matter of the different classes:

Note.—All domestic Mail Matter (except newspapers, magazines and periodicals sent to actual subscribers from a known office of publication) must be prepaid by postage stamps.

A letter on which one full rate of postage is propaid, but on which further postage is chargeable, will be forwarded when deposited in a postoffice, charged with the unpaid postage to be collected on delivery. If the postage is left wholly unpaid, or is prepaid less than one full rate, it will be "held for postage" and sent to the Dead Letter Office. Should it reach its destination by inadvertance, however, it will be charged with double postage on delivery. "One full rate" means, in the case of mail letters or other first-class matter, threecents.

If articles chargeable with different rates of postage are sent together in one package, the higher rate must be paid on the entire package; but two or more different articles, both chargeable with the same rate of postage, may be sent in one package on payment of that rate on the whole package.

The following are executors: From the mails: Liquids, Poisons, Glass, Explosive Materials, Books, Pamphiets, Pictures and other publications of an obscene or indecent character; all letters upon the envelopes of which, and postal cards upon which, scurrilous epithets are written or printed or engraved; or disloyal devices printed or engraved; and all articles which from their form or nature are liable to destroy, deface or injure the contents of the mail bags or the person of any one engaged in the postal service.

Postmasters are not allowed to give credit for postage, nor to deliver any mail matter until all postage due thereon has been paid.

FIRST CLASS.

FIRST CLASS.

On letters, sealed packages, mail matter wholly or partly in writing (except book manuscripts and corrected proof sheets passing between authors and publishers, and except local or "drop" letters); on all printed matter so marked as to convey any other or further information than is conveyed by the original print (except the correction of typographical errors); on all matter not otherwise chargeable with letter postage, but which is so wrapped or secured that it cannot be conveniently examined by postmasters without destroying the wrapper or envelope; on all newspapers, magazines and periodicals sent from publishers to subscribers and enclosing any article whatever except bone fide supplements or bills and receipts for subscription; and on all packages of matter not in itself chargeable with letter postage, but in which is enclosed or concealed any letter or other thing chargeable with letter postage—3 Cents for each half ounce or fraction thereof—weight of packages limited to four pounds.

On local or "drop" letters at offices where free delivery by carriers is established—2 Cents for each half-ounce or fraction thereof—weight of packages limited to four pounds.

SECOND CLASS.

Note.—Mailable matter of this class embraces all newspapers, magazines and periodicals exclusively in print and regularly issued at stated periods from a known office of publication, and addressed to regular subscribers.

The postage on this class of matter must be prepaid for not less than one quarter (three months) nor more than one year, commencing at any time, and the payment may be made either at the office of mailing or at the office of delivery.

Postage on Daily Papers, not over 4 oz. in weight, to subscribers, when prepaid quarterly or yearly in advance, either at the mailing office or office of delivery per quarter (three months) 35 cents.

Six times per week, per quarter (three months) 30 cents; Tri-Weekly, 15 cents; Semi-Weekly, 10 cents; Weekly, 5

POSTAGE PER QUARTER (to be paid quarterly or yearly in advance) on Newspapers and Periodicals issued less frequently than once a week, sent to actual subscribers in any part of the United States.

Semi-monthly, not over 4 oz., 6 cents; over 4 oz. and not over 8 oz., 12 cents; over 8 oz. and not over 12 oz., 18 cents.

Monthly, not over 4 oz., 3 cents; over 4 oz. and not over 8 oz., 0 cents; over 8 oz. and not over 12 oz., 9 cents.

Quarterly, not over 4 oz., 1 cent; over 4 oz., and not over 8 oz., 2 cents; over 8 oz. and not over 12 oz., 3 cents.

Note.—Packages of mailable matter of this class must be prepaid by stamps, and must not exceed the weight prescribed by law. All packages exceeding the prescribed weight are unmailable.

All matter of the third class must be fully prepaid.

On pamphlets, occasional publications, transient newspapers, magazines and periodicals; hand-bills, posters, sheet-music, unscaled circulars, prespectuses, books, book manuscripts, and proof-sheets, printed cards, maps, lithographs, prints, chromolithographs and engravings, seeds, cuttings, bulbs, roots and scions.

On flexible patterns, samples of ores, metals, minerals and merchandise, sample cards, photographic paper, letter envelopes, postal envelopes and wrappers, unprinted cards, plain and ornamental paper, photographs, and all other articles, for which other rates of postage are not prescribed in this table and which are not by law excluded from the mails—I cent for each two ounces or fraction thereof—weight of packages limited to four pounds.

On unscaled circulars, newspapers, (whether transient or addressed to regular subscribers—excepting weekly papers which may be delivered to subscribers on propayment of regular quarterly rates) and on periodicals not exceeding two ounces in weight, when any of the same are deposited in a letter-carrier's office for delivery by the office or its carriers—I cent each.

REGISTRY DEPARTMENT.

Valuable letters for any part of the United States, Canada, Great Britain, the Italian States or States of the North German Union will be registered on application at the Office, between the hours of 8 o'clock, A. M. and 4 o'clock, P. M.

THE REGISTRATION PRES, IN ADDITION TO THE BATES OF POSTAGE ON LETTERS OR PACKAGES, ARE:

On Domestic Letters, each 8 cents.
On letters and packages to Panama, New Granada, England, Ireland, Scotland, Walos Belgium, the Notherlands Prussia, fineloding all the German States) Austria, Italy, Switzerland, each 8 cents.

No Book Packets must exceed two feet in length, or one foot in width or depth, nor exceed twenty-four ounces in

weight; except to Germany.

"Indicates that prepayment on letters is optional; but letters forwarded unpaid or insufficiently paid are subject to a fine at the office of delivery, and will be charged about double the original postage required. Printed matter must be to a new at the olice of delivery, and whit of chargest the state of the propagation and the olice of delivery and white of the state of the card.

Postal Cards will be forwarded to Germany, Austria, Switzerland and Connada only, if an ordinary one cent postage stamp is affixed in addition to the stamp printed on the card.

Excuss Closed Mails, via New York, closes Monday, Wednesday and Friday, of each week, at 9 p. M.

MAILS FOR FRANCE

† The new Postal Convention between the United States and France, was carried into operation on the first of August, 1874. It fixes the postage on letters at 9 cents per ½ oz., on letters, prepayment optional, and 3 cents for each Newspaper. The fee on registered letters is 10 cents.

SOUTH AMERICA AND WEST INDIES.

Mails for South America and West Indies, via New York and St. Thomas, close at Baltimore Post Office on the 22nd of each month, at 9 r. m. Postage by this route to Brazil is 15 cents, Papers 3 cents. Montevideo, Uruguay and all the West Indies, 18 cents, Papers 4 cents, except to St. Thomas, to which island the postage is 10 cents, Papers 2 cents, and must be fully prepaid.

Mails for Peru, Chili, via Aspinwall and Panama, are forwarded per Steamers sailing twice or three times each month, and are to be fully prepaid, as follows: Peru, 22 cents; Ecuador, 20 cents; Panama, Aspinwall, 10 cents, on letters; 2 cents on Newspapers.

Havana Mails, via New York, close on Monday and Wednesday of each week at 9 r. m. Direct from Baltimore on or about the 1st and 15th of each month, at 1 r. m. Postage 10 cents on letters, and 2 cents for each paper.

MAILS VIA SAN FRANCISCO.

Correspondence for China, Japan, Australia, Fiji Islands, etc., marked "via San Francisco," will be forwarded at 10 cents per half-ounce on letters, and 2 cents for each Newspaper. New Zealand, New South Wales, at 12 cents half-ounce, and 2 cents for each Newspaper. Sandwich Islands, Vancouver Island and British Columbia, 6 cents on letters, and 2 cents on papers, and should be mailed not later than the 8th and 22nd of each month, to reach the steamers sailing from San Francisco on or about the 1st and 16th of each month.

STAMPED ENVELOPES.

The attention of the public is called to the advantage of using Stamped Envelopes rather than Postage Stamps. Daily, numbers of letters are dropped in the Post Office without propayment, with Revenue Stamps, and Stamps cut from Stamped Envelopes affixed, which are held for postage; whereas, by the use of Stamped Envelopes, these letters would go forward without delay.

Persons purchasing Stamped Envelopes of any denomination, in quantities of 500 and upward, may have their names and request to return in a specified time printed thereon—not to exceed four lines—free of charge. The Department offers unusual inducements to the public in the sale of Stamped Envelopes.

But The Rules of the Office, made in pursuance of instructions from the Post Office Department, forbid persons not in its immediate employ, or otherwise connected with its official transactions, from entering upon the floor. It is hoped that no one, whatever his position, will attempt to violate these rules.

Persons having grievances against the Office, on any account, will please report the fact in writing, or in person, to the Postmaster or chief clerk.

ENDORSED OR REQUEST LETTERS.

Any letter on which the postage is prepaid, having endorsed upon the outside thereof, in writing or in print, the name and address of the writer, if not called for at the Post Office at which it is directed within thirty days, or any less time the writer may direct, will be returned to the writer without additional postage, and without a specified request for such return being endorsed thereon.

POSTAL RULES.

Many errors occur by persons not observing the following regulations in depositing letters, papers, or miscellaneous publications in the Office for mailing.

MONEY SHOULD NEVER BE ENCLOSED IN AN ORDINARY LETTER.

Direct letters plainly to the Street and Number, as well as the Post Office, County and State. By inserting upon letters the County in which the office is located, many errors in superscription might be detected, and mistakes in mailing avoided.

Head letters with the writer's Post Office and State, Street and Number. Sign them with full name, and request

Head letters with the writer's Post Office and State, Street and Number. Sign them with full name, and request that answers be directed accordingly.

Full payment by Stamps required on all transient printed matter, foreign and domestic.

All letters not prepaid by stamps, all such as are received in the Office with Stamps cut from Stamped Envelopes or with such Postage Stamps as were in use prior to 1861, or with Revenue Stamps on them, are treated as "unmailable," and are sent to the Dead Letter Office.

Valuable letters should in all cases be Registered; and when money is designed to be transmitted, Postal Money Orders (to secure safety in transmission) should, when practicable, be obtained.

A letter once delivered to any one authorized to receive it, cannot be forwarded without additional postage.

THE FOLLOWING CLASSES OF LETTERS ARE NOT ADVERTISED.

Drop Letters unless three cent Postage Stamp is affixed. Letters bearing requests to be returned to the writers, or bearing the name and address of the writer. Box Letters, Postal Cards, Letters directed and sent to Hotels, and thence returned to the Post Office as unclaimed. Letters returned from the Dead Letter Office to writers. Circulars, free packages containing printed documents, speeches, and other printed matter. Official letters from any department of the government.

CITY DELIVERY.

The public are requested to adopt the house-door letter boxes, the use of which will result in greatly increased rapidity in the delivery of letters.

Free delivery of letters by faithful Carriers will be secured by having them plainly addressed to the street and

number.

No necessity exists for persons calling at the office, as all may have their mail matter left at their residence regularly. without risk or charge.

Unparalleled Success ! ! !

The Great Family Newspaper

FOR THE

Farmer, Granger, Miner & Merchant,

THE SAN FRANCISCO

Weekly Chronicle

Which, in consequence of its

WIDE-SPREAD POPULARITY,

Has already obtained the

LARGEST CIRCULATION.

The Star Weekly of the Pacific Coast,

AT ONCE THE

Largest, Brightest, most Comprehensive, most Reliable, most Entertaining, and in all respects the Best Weekly Paper ever issued this side of the Rocky Mountains, and the equal of any in the World,

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

TERMS-ALWAYS IN ADVANCE, IN COIN:

\$4.20 a Year,

Including Postage.

Extraordinary Liberal Club Rates:

6 Copies, - - \$19.40

10 Copies, -

\$27.20

And a Free Copy to the getter-up of a Club.

THE DAILY SAN FRANCISCO CHRONICLE is printed every day in the year, and is the ablest, boldest and spiciest newspaper printed on this coast. Served by Carriers at 15 cents per week, including Sunday's Double-Sheet Chronicle. To the getter-up of a Club of five subscribers a copy will be sent Free. The All Postmasters are Agents.

Terms by Mail, for the Daily, including postage: One Year, \$6.70; Six Months, \$3.35; Three Months, \$1.70; payable in advance, in coin.

A GENERAL DESCRIPTION

OF

SANTA CLARA COUNTY

Santa Claba County, one of the richest sections of the State in agricultural resources, possesses an area of 1,759 square miles, or 1,125,760 acres. Of this a trifle less than one-half is valley land, the residue being low, grassy hills or heavily timbered mountains.

The county is nearly 51½ miles in length, with an average width of about 34 miles, and has for its Northern boundary the Counties of Alameda and San Francisco Bay; for its Southern, Santa Cruz and San Benito; with Stanislaus and Merced for its Eastern; while Santa Cruz and San Mateo form its boundary upon the West. It derives its name from the old mission of Santa Clara, founded in the year 1777, by the Mexican Commander at the Presidio of San Francisco. An agricultural settlement having become a matter of necessity, as a point from whence to obtain supplies and subsistence for the garrison, a detachment was dispatched, with the result already named: the establishment of the mission. The present mission buildings were erected in 1822, but do not, however, occupy the site of the original mission. By a direct visitation of Providence the structures were twice destroyed; once by flood, in 1779, and again in 1781, by an earthquake. The history of the county, or, more properly, of the mission, from the date of its foundation to the ceding of Alta California to the United States, is involved in doubt, which nothing but the closest intimacy with the archives preserved in the Mexican capital would dispel. Tradition suggests much, but unfortunately it is the province of tradition to suggest, not to authenticate.

Santa Clara County has at the present time a population of about 30,000, and the assessed valuation of her real estate amounted, in 1873, to \$31,322,426.

The principal cereal products of the valley are wheat and barley. Fruit-growing of every variety, from that peculiar to the tropics to the growths of more hardy climes, is so largely conducted as to place it among the chief industries. Vegetable gardens abound in the valley, and the largest vegetables ever produced, are said to have been raised here. Much attention is also given to small fruits, this county outstripping, by far, any in the State, in the cultivation of the strawberry, hundreds of acres being devoted exclusively to this culture. But probably nothing deserves more especial mention, or more lavish encomiums, than the great nursery interest.

After utilizing everything peculiar to the country, in either fruiting or ornamental growth, those engaged in this branch of industry, by untiring and persistent effort, combined with liberal expenditure, have transplanted from the gardens of the world the choicest varieties of fruit, and the rarest exotic plants.

While at San Jose, recently, we visited several nurseries. Among the number, that of J. Rock, the Hannay Bros., the San Jose Park Nurseries, Mr. Sanderson's, and that also of Mr. Fox. The eye was gratified by every object it fell upon, and the air laden with a perfume so delicate as to induce the thought that a competition, even with "Araby the blest," would involve no doubtful issue. The northern lilly reared its pure white petals, tall, stately and symmetrical, side by side with a heathen sister, first ushered into life under Asiatic auspices, wondrously beautiful, in her

richly blended coloring of gold, crimson and scarlet. Cedars from Japan and Syria, Australian and American palms, all were growing in a communion close and brotherly.

The soil of this valley is "adobe," rich and exhaustless. Nature has exerted herself but slightly in furnishing irrigating facilities, the Gaudalupe and Coyote Creeks being the only important water courses within the limits of the valley. This want has been abundantly supplied, however, through the medium of artesian wells.

The richness of soil, and the perfection of this system, so to speak, of artificial irrigation, so ably supplemented by a climate barren of rigors, preserving the happy medium, holding aloof from extreme heat in summer, and as absolutely free from excessive cold in winter, proves the "summum bonum" of the agriculturist.

The adaptability of both soil and climate to grape culture speaks confidently of a future full of promise, when the uplands, now inaccessible to cultivation, with their verdant vine-clad terraces, will rival European thrift, and recall to one's mind the green slopes of that crater-crowned Neapolitan, Vesuvius.

But slight attention has been given to silk culture, yet the experiments have been sufficient to demonstrate that the mulberry thrives without the ordinary care cultivation bestows, and that the worm is remarkably free from disease. The raising of cocoons has, until recently, been the only department of silk culture in which any enterprise has been displayed. Now, a small factory is in operation for the spinning, winding and dyeing of silk threads.

In praise of Santa Clara valley, scarcely too much can be said. It is rich in soil, equable in temperature, with a geological formation which easily permits the obtainance of that water, from subterranean channels, which nature has denied to them in the form of running streams.

Its resources are almost boundless, possessing as it does over 400,000 acres of tillable land, with an equivalent acreage of forest-clad mountains, and seemingly inexhaustable quicksilver mines. The situation of the broad and noble valley is picturesque and beautiful, stretching away to the mountains, its almost unbroken plain diversified by gently undulating hills, dotted with clumps of trees, embosoming so many happy homes. It presents a picture of pastoral beauty, complete in outline, detail and perspective. To the artist, its quiet vale, with the golden flush upon its summer fields; the far off hills, softened into graceful lines of beauty by distance, and veiled in tropical haze, with its background of serried forests, is an inspiration which holds him spellbound to the spot. To the adventurer from other lands, it says, here you behold that for which you have sought in vain through many countries: a climate always temperate, a soil fruitful and generous, and a country prosperous and happy. To the agriculturist seeking an advantageous spot for the location of this industry, the waving, heavy tasseled grain, in rustling whispers, speaks of the abundant harvests, while every cottage and mansion, in the quiet surroundings, typifies the home his heart longs for.

Separated from San Jose by the first range of hills, on the South-east, is San Felipe Valley. Though exceedingly fertile, it is small, being about three miles in length by a half mile in breadth. San Felipe Creek furnishes all the water necessary for purposes of irrigation. The grain crop is always abundant in the bottom lands, while the hills bounding it furnish excellent grazing lands. Game of all kinds is found here in plenty, from the deer to the mountain quail. The population of the valley aggregates about one hundred. It is approached by way of Evergreen.

In the same range of hills, about the same distance from San Jose, but in a North-east direction, is Calaveras Valley. It lies upon the North-eastern extremity of the county, at its junction with Alameda County. It is considerably elevated, and is almost circular in form, having a diameter of about two miles. It is well watered by a creek which flows through its centre, is a splendid grain-producing valley, and has a population about equal to that of San Felipe Valley.

Los Aminos Valley lies some eighteen miles South-east from San Jose. It is of some considerable extent, but better adapted to stock-raising or grazing purposes than for agriculture, its surface being broken into a succession of knolls, there being scarcely any level surface within its limits. Los Aminos Creek furnishes all the water necessary to the industry flourishing there. At least one hundred and fifty persons are living in this valley.

Canada Valley is of a crescent shape, containing some ten square miles; is devoted to the raising of grain, also to grazing; is well watered, fertile in soil, is considerably elevated, and has a population of about one hundred and sixty persons. It is upon the road from Gilroy to the Hot Springs, and is South-east from Gilroy, some ten miles.

SAN JOSE,

The County-seat of Santa Clara County, has a population of 13,000 persons. It dates its origin from the 29th of November, 1777, and occupies the site selected by the detachment sent from the Presidio of San Francisco, for agricultural purposes, as previously related. The first location chosen was the bank of the Gaudalupe River, near the present northern boundary of the city. Danger from the overflow of the creek during winter induced the changing of this location to a point about a mile and one-quarter to the south. The town was built on the true Spanish principle, a plaza being the central point around which, for the time being, everything centred, and from which, as the city assumed more importance, everything radiated. A saintly name was chosen for the new birth, and for fear one saint should be powerless to raise her to the acme of prosperity, two were chosen, and the little hamlet startled the universe by flinging at its feet the name of El Pueblo de San Jose de Gaudalupe. For what reason she abandoned the latter titlewhether the tutelar saint of Mexico proved recreant to her trust, or powerless to assist, having sufficient with which to employ herself in the land of her adoption; or whether at the wane of Mexican rule, with the unfurling of the bear flag, she, with that unerring instinct which prompts the rat to desert "a coffin ship," dropped it as a form of throwing off allegiance-history says not, and we are at sea in the blinding fog of doubt. Certain it is that now, in the full vigor of her being, with knotted muscles, full, throbbing pulses, prosperous, happy, rich, proud and beautiful, she stands forth, the simple, unaffected, San Jose, favorably known to commerce, and the third city of the State.

The growth of San Jose was as slow and gradual as even a Mexican could desire, unless, indeed, he would prefer a perfect stand-still, as, after a lapse of fifty-four years, the total population numbered but 524, and as statisticians were probably no less ambitious in those days than at present, to attain well-rounded figures, aggregating their population, it might be well to make a mental calulation, in order to ascertain what percentum of these figures should go to offset neighborhood pride, but as we have accepted the fiat promulgated in the days to which no man's mind turneth back, viz: that "figures never lie," we withhold our sacreligious hand, utter no scoff, and pronounce ourselves true believers. The little colony had the honor of welcoming the advance guard of overland emigration, a party reaching this place from Missouri, after a tedious and perilous journey across the plains, in 1844.

In 1846 San Jose fell into American hands. In 1847 the city was surveyed and properly laid out in streets and blocks. Americans now stepped at once into the conduct of public and business affairs. It became the first State Capital, the Legislature meeting here for four consecutive years, commencing in 1849. For some reason, known only to politicians, it was then deemed advisable to remove the capital to Vallejo.

From this time forward the progress of the city has been rapid, and improvement has been the order of the day. Little remains to be seen of the universal Mexican taste in architecture, that joint product of shiftlessness and mud, the adobe.

When one has seen, as one may see at any time in Mendocino County, for instance, houses built entirely of timber, hewn by the unaided arm and axe of the frontiersman, and this so neatly, that only by close observation can one distinguish the fact, it is difficult to ascribe the building of Irish huts in a well wooded-country, to anything but an indisposition to labor on the part of the settler.

But whatever we may say of San Jose and her prosperity, of the rapid accretions to her population, and a consequent increase of wealth and importance, we cannot but think most of its blessings to be the direct result of railroad connection with San Francisco, and the surrounding country. Situated in the heart of a rich grain and fruit-producing district, she can now avail herself of speedy transportation for products, which less rapid facilities would largely cheapen, by reason of their perishable nature. Again, thousands of people are induced to visit the town because of the ease and speed with which the trip can be accomplished. That railroads have a faculty for developing the latent resources of a country, and that they give an impetus to those already established, has come to be very generally believed. One must visit the counties cut off entirely from the markets of the State to realize the value of railroad facilities to an agricultural section, where the cost of wagon transportation ecxeeds the value of the produce, where producers have no incentive to labor further than may be necessary to supply their own primitive wants, or the demands of a scantily settled neighborhood.

San Jose lies about fifty miles South-east of San Francisco, nine miles from the head of the bay of the same name, elevated some ninety feet above its waters. It is lighted with gas, well supplied with pure water, and possesses good drainage facilities. The beautiful drives in the vicinity afford the tourist and the resident opportunities such as they will meet no where else in the State. The Alameda, leading from San Jose to Santa Clara, is especially beautiful. It has rows of willows on each side of the way, planted by the missionaries in 1799, for the purpose of shading the walk which connected the pueblo of San Jose with the mission church, occupying a site near the church now standing in Santa Clara. This magnificent avenue is justly appreciated by the residents of the city, as the care bestowed upon it fully evinces. It is kept in perfect repair, and in as cleanly a condition as the much vaunted streets of Philadelphia. The dust is never allowed to riot here; no dissipated molecules of the sand family are allowed to gather upon street corners and improvise miniature whirlwinds to the horror and detriment of passers-by. In fact, cold water is dashed upon every such effort, the street being constantly kept well watered. People here stoutly insist that water is a decided preservative of street pavement, a fact one can easily believe from the perfect condition in which this street is always maintained, at trifling expense.

A new road is being made by General Naglee from San Jose to Alum Rock Springs, a distance of eight miles from the city, in an Easterly direction. About three miles of the road are already completed and in public use. The General is devoting his time to a personal superintendence of the work. Shade trees are being planted upon either side, and at no distant day this promises to share the honors equally with the famed Alameda. The small hotel at Alum Rock Springs, having been found inadequate to meet the public wants, will be shortly replaced by one more commodious and pretentious. These springs are situated in Penitencia Canyon, and are the

property of the city.

Many of the nurseries, for which the county is so justly famed, are located near San Jose.

Its railroad connections are the Central Pacific and Southern Pacific on the north, and the Southern Pacific on the south. A road is also projected connecting with Alviso, seven miles north. Coming overland, one can connect at Niles station, the junction with the Central Pacific, and approach San Francisco through San Jose, if deemed advisable.

THE EDUCATIONAL ADVANTAGES,

Offered by the Public School system of San Jose, are said to be very thorough. The schools are perfectly systematized, and the course of instruction is sufficiently comprehensive, without being too discursive.

The popular bias in schools of many cities, seems to be in favor of superficial linguistic acquirements in every direction save that of the mother tongue, and so one can speak French, with the true Parisian accent, converse in Spanish which bears the warrant of Madrid, and carry on a conversation in German, avoiding the provincial idioms, he feels perfectly at ease when murdering and maining the English language, and commits the most eggregious solecisms with the complacency of a stoic.

It is refreshing, however, to think that in some localities people have retained their senses sufficiently, not to long for hybrid growth in matters educational, and understand the force and see the necessity of building the edifice of American education upon the broad and sure foundation of a thorough English training. This the School Commission of San Jose appear fully to understand.

There are seven public schools, in which the course of instruction includes mathemathics, progressing as far as geometry; physiology, practical and physical geography, English composition and analysis, and penmanship. Two of these school buildings are remarkably fine structures, having been erected at a respective cost of twenty-five and fourteen thousand dollars. The remainder, though answering every requirement, are more primitive, and are used for primary and intermediate grades.

The San Jose Institute and Business College, ably supervised by Prof. James Vinsonhaler, offers all the advantages of a thorough private day and boarding school. It is graded, having primary, intermediate, grammar and academic departments, and, connected with it, has a business college and telegraph institute, fitted with all the business and banking appliances so necessary in the conduct of such an institution. It is meeting with the success it so deservedly merits.

The Academy of Notre Dame enjoys a central position. The buildings and improvements, occupying some twelve acres of ground, are valued at above a half a million of dollars. Its name sufficiently indicates its sectarian character; it is under the control of the Catholic Church, and under the immediate auspices of the Catholic Sisters. There is also a Catholic school connected with Saint Joseph's Church, supervised by the "Fathers." Smaller private schools flourish in different portions of the town, generally under neighborhood patronage.

Gracing the Alameda, between San Jose and Santa Clara, is an imposing structure known as the "University of the Pacific," recently erected at a cost of sixty thousand dollars. It is designed for both sexes, is denominational in its character, devoted to the interests, and under the patronage of the Methodist Church, a body religious, which has given more educational institutions to the State than any organization within its limits.

The State Normal School building occupies a site in a park, known as Washington Square, comprising about twenty-seven acres. It is a donation from the city to the State for this purpose. The building is exceedingly spacious, being two hundred and eighty-four feet in length, one hundred and sixty feet in depth, and is surmounted by a tower one hundred and fifty feet in height; the basement of brick, the superstructure being of wood, three stories in height. It contains a fine exhibition hall. The entire cost of the building was two hundred thousand dollars.

San Jose has its full quota of

PUBLIC BUILDINGS,

The most noticeable of which, from the massiveness of its architecture, combining strength with beauty, is the County Court House. It is built in the form of a parallelogram, with walls of brick masonry. The front is relieved by a portice extending across the full width of the building, supported upon massive columns, Corinthian in architecture. The structure is surmounted with a dome, elevated to a height of one hundred and fifteen feet from the ground. Quitea wide and extensive view can be enjoyed from here, the topography of the surrounding country being spread before the vision of those ambitious enough to overcome the difficulties offered by this elevation—as for ourselves, we never achieved it. It will do well enough for the light dragoons of humanity, but we belong to the heavy horse, and the mere thought of such an elevation, with its accessories of winding stairs, is sufficient to open our pores, and induce short respiration.

The County Jail, in the rear of the Court House, is said to be the best in the State, and cost \$80,000.

The old City Hall is occupied by the officers of the city, also by the Fire Department.

The Opera House is a neat and convenient theatre, with a seating capacity of about seven hundred. It is not an established theatre, and is used by traveling companies only.

Music Hall, located in a building of the same name, is spacious and well arranged. It is fitted with a stage and scenery, and will seat sixteen hundred persons. There are several other halls, public and private, among which are the Masonic, Odd Fellows, and Turn Verein.

For purposes of worship, San Jose has three Methodist Churches, one of which is German. The Presbyterians, Episcopalians, Baptists and Friends, are denominations which are also represented by church buildings. There are two Catholic Churches, and one Hebrew, while the Unitarians invoke God from various places, and the Society of Free Thought, not having forethought sufficient to provide themselves a place of worship, are in more senses than one, wanderers from the fold of Israel, and have no altar whereon to offer up their sacrifices.

San Jose has two daily papers, morning and evening, called, respectively, the Mercury and Patriot; also five other publications, four weekly and one monthly.

It has also a Library Association, centrally situated, with commodious and comfortable apartments. It was incorporated in 1872, has established a building fund, is making large accretions to the stock of books, and is apparently destined to achieve perfect success.

Of the banking interest, the Bank of San Jose may be said to take the lead, by virtue of its seniority, since it is the oldest bank in the county. Its cash capital amounts to an half million of dollars. It is a joint stock corporation, and numbers among its directors and officers some of the most successful, enterprising and substantial citizens of the place. It does a general banking business, and also has a savings department. The building is a very fine one.

The San Jose Savings Bank is also an institution receiving general patronage. It enjoys the utmost confidence of all residents, has a fine location and building, and whether making money or not, is certainly helping others to save it.

Messrs. McLaughlin & Ryland employ a large capital, do a general banking business, and enjoy the favor and confidence of the entire business community. In addition to these, a new bank has just been established, called the Farmers' Gold Bank.

The Fire Department is entirely composed of a volunteer force, numbering about two hundred and eighty men, divided into five companies. There are two steam engines, one hand engine, one hook and ladder company, and one hose company.

San Jose has two Street Railroads, one commencing at the Eastern portion of the town, extending through the full length of Santa Clara Street, and the Alameda connecting with Santa Clara. This makes an entire length of about four miles. The First Street road extends from the Southern Pacific Depot on the North, nearly to the Southern limits of the city. The latter, we believe, is to be extended still further in both directions, while the building of roads in other portions of the town is considerably talked of.

Two very roomy and well-ventilated markets have recently been erected at a large cost. They are elaborately finished and furnished with every appliance and convenience which can add to their fitness.

To the tourist we can recommend, unreservedly, the hotels of San Jose. The Auzera's House enjoys an enviable reputation, both at home and abroad. The building is among the noteworthy ones of the city.

The New York Exchange occupies two large brick buildings at the corner of First and St. John Streets, and has roomy and unexceptionable accommodations for a host of guests. In fact, like an omnibus, it has always room for one more. The proprietors of this hotel, Messrs. Barker & Towne, toward whom we have sustained the relation of guests, are courteous and accommodating, supervise their business personally, and no want of their numerous patrons is neglected or uncared for. The rooms are spacious and well furnished, while the table is provided with every seasonable delicacy.

THE MANUFACTURING

Interest in San Jose is by no means what it should be. The high price of skilled labor, together with the usurous rate of interest, effectually prevents any expansion in this direction.

The Santa Clara Mill and Lumber Company employs about fifty men in the manufacture of doors, windows, sash, blinds, mouldings, etc.

S. H. Chase also has a large lumber mill, which employs twenty-five or thirty men.

Froment & Co. employ about a like number, their business being of the same nature, and the articles of manufacture identical. These mills represent the lumber milling interest, dress and manufacture most, if not all, of the lumber needed for home consumption, and give employment jointly from one hundred to one hundred and ten men.

The San Jose Woolen Mills, established in 1870, have been doing a very successful business. They employ about fifty people, over three-quarters of whom are Chinese. They are retained, not because the management particularly loves them, but because they love themselves so slightly as to place small value upon their services.

There are also three foundries and machine shops, three flouring mills, three breweries, two distilleries, five carriage factories, two candy factories, one fruit-drying establishment, one tannery, one glove factory, one broom factory, one coffee and spice mill, and one starch factory.

Cigar manufacturing is carried on quite extensively, though generally by individuals and in a small way. In the aggregate, however, it approaches a large industry.

There is also a large factory, owned and conducted by Mr. A. Lake, for the manufacture of boxes of all descriptions.

The next few years will probably add materially to the manufacturing interests of San Jose, and swell them into a magnitude more in proportion with the grand industries of the county.

GILROY,

Named after the first white settler in the State, is situated between the Coast Range and Contra Costa Mountains, in the southeastern portion of Santa Clara Valley, about thirty miles from San Jose.

The growth of Gilroy, as a town, dates back only some five years.

It is incorporated, has a well administered city government, and a population numbering about eighteen hundred. It is connected with San Francisco by the Southern Pacific Kailroad, and two lines of telegraph furnish them with means of rapid communication.

While the terminus of the Southern Pacific Railroad, Gilroy enjoyed a prosperity which proved of but short duration. The road being continued to Hollister, carried the business with it, and left Gilroy devoid of even the ordinary evidences of business thrift.

With the wane of trade, stores were abandoned, the stock being moved to other points, and many of the most conveniently located buildings in town were abandoned to storage purposes, at merely nominal rates.

It is well provided with conveniences for the traveler, having two first-class hotels—the Hanna House and the Williams Hotel. Here one can be cared for as comfortably as though in the metropolis.

The school advantages offered by Gilroy are very great. The public schools are graded, the teachers experienced and competent. The High School is well organized, while the course of training is very thorough.

St. Stephen's boarding and day school for girls, presided over by the Rev. E. C. Cowen, Rector, is a flourishing institution. In addition to the instruction in the English branches, the languages are made a specialty.

There is also a seminary for girls, with a lady principal; as also a convent school, under the auspices of an order of sisters.

Religious bodies are well represented, and would seem to be in good financial condition, judging from the fact that all worship in their respective churches. The denominations are the Presbyterian, Episcopal, Methodist Episcopal, Methodist South, Christian and Catholic.

Gilroy possesses the three indispensables to a city: gas and water works, and a fire department. The latter is a very efficient and well organized volunteer body of one hundred men, manning a hand engine, a hook and ladder and hose company.

Dairying is quite extensively conducted in the vicinity of Gilroy, some of the dairies milking as many as six hundred cows. Stock-raising is indulged in to some extent in the neighboring hills, and quite a large wool product is obtained.

The Santa Clara Valley Flour Mill, driven by steam, with four "run of stone," is located here. The industry most meriting that name, however, and one which has assumed gigantic proportions within a year or two past, is the growing, curing and manufacturing of tobacco. For the conduct of the business a joint stock company has been formed, entitled "The Consolidated Tobacco Company," with a paid-up cash capital of \$750,000.

The tobacco, after the crop is gathered, is subjected to a curing process, of which Mr. J. D. Culp is the originator and patentee.

The company at the present time is employing in the vicinity of one hundred men, mostly Chinese, and is engaged in manufacturing smoking tobaccos and cigars. We sincerely hope they may be eminently prosperous in their undertaking.

Gilroy also boasts a banking house and planing mill.

About fourteen miles from the town, in a small rocky gorge on the Cayote Canyon, are the famous Gilroy hot mineral springs.

The situation is wildly romantic and beautiful. From the banks of the creek the hills rise abruptly to a height of several hundred feet, heavily timbered even to the extreme summit, with here and there an open space covered with heavy undergrowth. The Springs, with their accompaniment of buildings, are situated about half way up the mountain. From hundreds of feet below comes the dash and murmur of the creek as it winds through the intricacies of its course, now tumbling over rocks in a miniature cascade, now pushing its level way, its surface unruffled by a single ripple, and again angrily expostulating with the ragged edged rocks which interrupt, and have interrupted its course for ages. Nature is here presented in her most rugged and savage aspect. No softened outline; no well arranged foreground, relieved by distant neutral tints; and were it not that some of the details possess much of beauty, sufficient to give variety, one would no doubt soon tire of the scene. But when we enter upon the grounds surrounding the buildings, and the buildings themselves, we find sufficient that is merely beautiful to look upon, and gladly again betake ourselves to the contemplation of the grand in nature, and so do we refresh ourselves at each stream, correcting one by the other.

The hill has been cut away to furnish foundations for the buildings.

Walks have been cut into the hill, serpentining throughout the grounds, and terraced parterres of variegated and beautiful exotics, lend a sort of enchantment to the scene; a garden in this wilderness of mountain forest.

The buildings are replete with all the comforts of metropolitan houses of entertainment. Billiards can be indulged in to any extent, all the leading papers of the Coast find place in the reading room, while the wine closet is equal to any emergency. Some twenty or thirty cottages, arranged in the form of a crescent, lend a homelike look to the surroundings, the unblemished whiteness of whose exterior assures their graceful furniture and completeness within.

The cuisine is all that could be desired, even were markets more convenient. The table is well served, the waiters so thoroughly understanding their business as to attend to every want, quickly, easily and satisfactorily. As for room and sleeping accommodations, one could not be better cared for. Nothing but the exhilirating mornings in that high latitude, suffices to allure one from a couch which lends all the attractions of luxury and ease to soothe, entrance, and almost enervate.

We should have delighted to have remained in this beautiful retreat for a month at least, but that American nightmare, a business exigency, drove us incontinently from its retirement.

The Springs are situated but a few hundred feet from the hotel. Bath houses occupy the spot, where gentleman or ladies can enjoy plunge or shower baths, from five in the morning until nine at night.

The water possesses great curative properties, being strongly impregnated with iron, magnesia, sulphur, arsenic and alum, iron predominating.

The class of patients treated successfully are those suffering from paralysis, rheumatism, billiousness, debility and all nervous and cutaneous disorders.

The average temperature of the water as it issues from the ground is 110°, but the system of conducting it is such that any temperature which may be desired can be obtained.

SANTA CLARA

Was founded in the year 1777, with the establishment of the mission of Santa Clara.

It is very prettily located, is the seat of Santa Clara College, conducted by the Jesuit Fathers, and does not enjoy much commercial importance, probably from the fact of its close proximity to San Jose.

Its population numbers about two thousand,

Santa Clara College occupies the site of the old mission buildings, a few of which are still visible.

The old church yet stands, but with a new roof and modern front. A large wooden cross, opposite the church, occupies a position it has held since the church was built.

Santa Clara has five Protestant churches, belonging respectively to the following denominations: Methodist, Episcopal, Presbyterian, Episcopalian, Christian and Baptist.

It has one hotel, the Cameron House, which, however, is a good one, and, in every respect, worthy of the name. In the summer season it entertains many city people, who bestow the highest commendations upon it.

MAYFIELD

Is distant from San Francisco some thirty-five miles, and nearly three miles from the southern line of San Mateo.

It has a population numbering three hundred and forty, and about twenty business houses, embracing all varieties of trade.

The progress made by the town, since the building of the railroad, has been very rapid, it consisting, previous to that time, of a store and hotel.

It has two churches, a Methodist and Catholic, a public hall, and one beloning to the Odd Fellows.

The town supports two hotels, regarding one of which we can speak with the confidence born of knowledge. We remained at the Chandler House some two or three days, were well cared for, and received all the attentions which a kind, painstaking host could bestow.

MOUNTAIN VIEW STATION

Lies on the line of the Southern Pacific Railroad, five miles south of Mayfield, forty miles south of San Francisco.

This town has come into being since the building of the railroad.

The old town of Mountain View is about a quarter of a mile west of this station, and, notwithstanding the building of a rival so close at hand, she seems not to have suffered much in her business interests, and though it undoubtedly retards her growth somewhat, it has at least left her a subsistence.

The two towns are about equal in point of population, numbering about two hundred inhabitants each.

A church occupies neutral ground midway between the two towns.

Old Mountain View has a fine school house and a good hotel. Regarding the obtainance of their mail matter, the best manner in which they could arrange it, apparently, was on a basis of reciprocity, and while Mountain View Station takes a walk to Old Mountain View, to see if Mr.

Wells Fargo has anything in charge for it, Old Mountain View has to lounge up to Mountain View Station for its "billet doux," as the Postoffice is located at this point.

Mountain View Station also has a hotel, and both are well provided with business houses.

ALVISO

Is situated at the junction of Alviso Slough with the Gaudalupe River, about three miles from San Francisco Bay.

This is the shipping port of Santa Clara County, and is north of San Jose, 8 miles.

A regular daily line of steamers runs between this place and San Francisco. It possesses good wharves for the accommodation of shipping, and has several large flouring mills, granaries and warehouses.

The Alviso brand of flour is said to be one of the best made in the State.

The population numbers about 150 persons.

A good hotel is located here, and a general store.

MILPITAS

Is a thriving little town, some seven miles north of San Jose, on the line of the Central Pacific Railroad, and has about 150 inhabitants.

It has two churches, a school house, hotel, blacksmith shop, general store and two saloons.

It is situated in the midst of a fine farming section, and in the immediate vicinity are grown the strawberries, for the production of which the county has become so famous.

LOS GATOS,

Ten miles southwest from San Jose, is a town numbering 200 inhabitants.

It is situated in a slight depression, on the south bank of a creek bearing the same name.

A church and school-house are located here, together with a hotel, two general stores, two blacksmith shops and two saloons.

A large industry also flourishes here, under the name of the Los Gatos Manufacturing Company, comprising a flouring and woolen mill. Some time since the woolen mill was destroyed by fire.

At a distance of two and one-half miles west is the town of

LEXINGTON,

Which is situated in a gap of the Sierra Azul, as the Santa Cruz Mountains are called at this point.

The hills, densely timbered, rise to a height of nearly 2,000 feet, completely surrounding it on all sides.

There is much fine agricultural, grazing and orchard land in these mountains, the plateaus, formed by the rising land, being utilized for fruit-growing purposes.

Lumber mills were once profusely located here, the Los Gatos Creek furnishing a fine waterpower. Now, however, most of them have been removed to Santa Cruz County.

The town contains about fifty inhabitants, and has a hotel, blacksmith shop and store.

The hotel is a fine one, presided over by a lady who not only understands how to please, but exerts herself to the utmost to do so.

The post office is two miles west, at a place called Alma.

Trout fishing and hunting can be indulged in here to any extent.

SARATOGA,

The original name of which was McCartysville, is southwest from San Jose ten miles.

(OAEB')

It is situated at the foot of the Coast Range, and is nearly surrounded by mountains.

In these mountains Campbell Creek has its rise, a considerable stream, furnishing a power adequate for quite a milling interest, a pasteboard and paper mill being in full operation when we visited the place. A grist mill we also noticed, which had, however, suspended operations.

The inhabitants number about three hundred.

The town boasts one church, a school house, two hotels, a blacksmith shop, and several stores.

Following the devious winding of the creek for a distance of one mile, we come upon a collection of buildings, grouped upon a small plateau on the mountain side. This we know at once to be "Congress Hall," a hotel for the entertainment and comfort of guests visiting the Springs of the same name, located about a quarter mile higher up the mountain, on the opposite bank of Campbell Creek.

Architecturally, and as far as the inner comforts, conveniences and furniture of the building are concerned, they are unexceptionable, being built, finished and fitted in a most thoroughly modern manner.

The Springs are termed the "Pacific Congress Springs," from the similarity of their waters to those from the celebrated Congress Spring at Saratoga, N. Y.

There are three springs, the water being received in sand stone basins, the lowermost of which receives the drainage from the others.

A bottling apparatus is in use here, the water being widely disseminated throughout the coast.

Surrounding the Springs are shady nooks, fitted with rustic seats.

A large floor has been erected for dancing purposes, and here, in a wild gap or canyon of the mountain, Nature and Art have vied with each other to render the place attractive. Nature has grouped the wild and picturesque, achieving sublimity, while Art, availing herself of natural advantages, has supplemented Nature without marring its simple grandeur by a too close alliance with the artificial.

The Hotel is conducted upon a most generous principle, and entertains visitors throughout the entire year.

The table is furnished as unsparingly and lavishingly, as any on the coast. Order is supreme throughout the establishment, and either a flying visit, or a residence stretching over a period of months, is an experience too pleasant to be easily or soon forgotten.

Game and trout exist in abundance in the vicinity, furnishing an ever present opportunity for relaxation.

THE QUICKSILVER

Region of Santa Clara County covers a surface of about ten square miles. The New Almaden Mine is situated some thirteen miles South from San Jose, was located in 1845, and is by far the largest mine in the County.

The town contains some two thousand inhabitants, comprised of those employed about the mines, and others necessary to administer to their wants.

We regret that the indisposition of the management here to impart information has left us almost totally ignorant of this great interest.

The Enriquita Mine is located two miles Nort-west from the Almaden, and the Gaudalupe two miles still further North.

Want of time prevents our searching authorities for details regarding this industry, while the reluctance of those connected with them, to assist us to the information, does not inspire us with an overweening desire to labor in their behalf.

It is not, however, the mining industry which is to acheive the future of this county, but the industry of the husbandman, and, perfectly satisfied that none of her interests will suffer at his hands, to him do we commend it.

STOVER'S WIND ENGINE

the great majority of windmills are not to be windmills are not to be relied upon in storms or light winds. The winter gales that sweep over this coast often completely wreck many of the ordinary mills. Naturally enough, many persons become prejudiced against all windmills. It is not treating fairly those few who have for many years made windpower a study and a specialty, to class the production of their labor with that of the many who pretend to be windmill makers.

retend to be windmill makers.

The STOVER is so constructed that if left running when it encounters a storm or gale, it will quietly stop running, and when the storm subsides will commence pumping again. It can also be arranged to pump a large or small quantity of water, as may be desired, and to turn itself out of the wind when it has filled the tank or reservoir. Its construction is compact and simple; its movements steady and noiseless. It has fewer joints than almost any other windmill to wear andirattle in the wind. It has antifriction balls upon which it revolves upon its axis, needing no oil, and enabling it to turn in the slight, and enabling it to turn in the slight est breeze. It has a graduating weight, by which its power and speed can be increased and diminished at will.

The STOVER is an Illinois invention. Believing it to be the best eastern patent among the many which have been introduced here, we were induced to secure the right to manufacture them for this coast.

The STOVER has taken the MEDALS at the Illinois State Fairs for the best Windmills for Farm Purposes, over all competitors—Thirteen in Number.

Manufactured at the Excelsior Windmill and Horse-Power Works,

WILLIAMS HOTEL,

Monterey Street, Gilroy.

The Undersigned, having taken charge of the above house, will repair and refit it in good style, and provide in every way for the comfort and convenience of the traveling public. He will furnish

First-Class Accommodations

For families or single persons desirous of making an extended stay. Patrons may rest assured that

THE TABLE

Will receive particular attention, on which will always be found the substantials as well as every delicacy of the season.

Stages for the Gilroy Hot Springs

Leave this house daily, and the greatest pains will be taken to secure the comfort of invalids wishing to visit the Springs.

An Omnibus will be at the depot on arrival of trains to convey the passengers to the house free of charge.

R. G. SMITH, Proprietor,

Late of the Lick House, San Francisco.

Saint Stephen's School, Gilroy, Cal.

ADMISSION CHARGES.

Charge for Board, Tuition, Fuel and Light, for Term of Five months.

For Day Scholars of the Primary Department, per month.

Second and Third Forms.

Fourth and Fifth Forms. Fourth and Fifth Forms.

Sixth Form.

Instruction on Piano, with use of Instrument, per month.

Vocal Music, private lessons.

Class Vocal Music, without charge.

Ancient Languages, without charge.

French, German and Spanish, each per month.

Washing, per month.

REQUIREMENTS.

Each pupil must bring with her a Bible, Prayer Book and English Dictionary, and the following articles for her use in the School:

1 Pair Blankets, 6 Towels, 1 Dressing Sacque, Water Proof Cloak, 2 Pairs Pillow Slips, 6 Table Napkins, 1 Silver Napkin Ring, Umbrella, 1 White Spread, 3 Sheets, 1 Clothes Bag, 1 Pair Rubbers.

Each article of clothing must have the owner's name plainly marked upon it.

It is especially desired that parents will provide plain, serviceable underclothing for their daughters, as extra charge will be made for washing all claborate pieces.

A suit of black alpaca and one of white pique will be required as uniforms in the School, for Church, and on extra occasions.

on extra occasions.

EXPENSIVE DRESSES AND JEWELRY ARE NOT ALLOWED.
Pupils will come provided with thick boots and flannels for winter use.

Pupils will be required to attend Sunday Morning Service at St. Stephen's Church. Catechetical instruction will be given every Sunday afternoon in the Chapel, at the School.

No Visitor will be received at the School of Sundays.

Pupils will not be allowed to visit or attend parties, or to leave the grounds, unless accompanied by parents or teachers, or to receive calls from gentlemen or ladies who have not been introduced by parents to

Parents or teachers, or to receive calls from gentlemen or ladies who have not been introduced by parents to the Rector.

Parents must send to the Rector, the names of those with whom they desire their daughters to correspond.

Parents must send to the Rector, the names of those with whom they desire their daughters to correspond.

Parents must send to the Rector, the names of those with whom they desire their daughters to correspond.

Parents must lead to write to parents or guardians once every week. It is deemed best to have very few correspondents while in School-the fewer the better.

All letters written by pupils will be subject to the inspected.

Newspapers and Magazines sent to pupils will be inspected.

These rules are adopted in order that no improper correspondence may be carried on.

Parents are requested nor to send boxes of fruit and confectionery to their children, as the table will at all times be amply provided with the fruits of the season.

Sernoing Money must be deposited with the Rector, to be given at his discretion, and in no case must it exceed \$5 per term.

This School is located in the City of Gilroy, about three hours' ride from San Francisco. The climate and advantages of this section of the country are sufficiently known to make it a desirable point for a school. The grounds comprise four acres, nicely laid out, and planted with fruit and ornamental trees and flowers. The house is well built and commodious; the school-rooms convenient and comfortable. There are play-grounds, swings, and all that is necessary for the physical culture of the papils.

All letters and packages for pupils must be addressed to "St. Stephen's School, Gilroy, California."

REMARKS.

One of the most frequent causes of slow progress, is the eagerness of a pupil to pass over a study quickly, in order to say she has finished that branch of her education. If teachers are HONEST and do their duty CONSCIENTIOUSLY, they will hold back the pupil until a good FOUNDATION is laid, and there is some sign of real advancement. Often children and parents do not appreciate the wisdom of this course, and it is a great trial to a teacher. It is better to lose the pupil than to aid in a superficial education.

When girls come to us, no matter what may be their age or attainments, we consider them for the time being mere school-girls, and not members of society. When they enter our household, it is for the one object of seeking education; and to this object all other purposes MUST yield. A long experience convinces us that VISITING among school-girls is a MOST INJURIOUS habit, and soon defeats the very purpose for which they come to school.

to school.

All communications should be addressed to

Rev. E. C. Cowan.

Rector St. Stephen's School, Gilroy, Cal.

SAN JOSE

WHEATEN STARCH

Manufactured by

J. JOHNSTON,

SAN JOSE, CAL.

This STARCH is made from the best of Wheat, and is used by the Laundries and Hotels, who pronounce it SUPERIOR IN STRENGTH and FINE SATIN GLOSS to any imported Starch---One Pound being equal to One and a Half Pounds of Eastern Starch!

Directions.

Take two-thirds the quantity that you would of Eastern Starch, and pour on COLD Water sufficient to dissolve it: then pour on HOT Water, stirring until it boils and becomes clear: then reduce to a liquid state, dip the Linen in, and wring it out. Iron when damp. This will leave an ELASTIC STIFFNESS and a FINE SATIN GLOSS.

FAMILIES WILL FIND IT GREATLY TO THEIR INTEREST TO TRY IT.

For sale by all the PRINCIPAL GROCERS throughout the country.

SEND YOUR ORDERS TO

J. JOHNSTON, San Jose,

CAMERON HOUSE,

SANTA CLARA.

MARTIN CORCORAN, - - - Proprietor.

HE above House is open for the reception of guests. It has all modern improvements usually found in the best hotels. It has

SPLENDIDLY FURNISHED SUITES of ROOMS

FOR FAMILIES,

and is not excelled, if equalled, by any house outside of San Francisco.

THE HOUSE HAS BEEN

RENOVATED and REFITTED THROUGHOUT,

And it is the determination to render it second to none on the Coast for accommodation and comfort. Parties from the city will find here all the conveniences of home life, with none of the annoyances incident to house-keeping.

CTHE TABLES

Will be furnished with all the luxuries commanded by a superior market and a first-class cook.

OTHE STABLESO

In connection with the Hotel are large, and contain EXCELLENT HORSES and FINE BUGGIES and CARRIAGES.

A COACH will be at the Depot on the arrival of each train, to convey passengers and their baggage to the hotel.

Terms Moderate.

MARTIN CORCORAN, Proprietor.

Dry Goods, Dry Goods, Dry Goods.

L. LION & CO.

S.W. COR. FRANKLIN AND WASHINGTON STS.

SANTA CLARA.

WE DESIRE TO CALL ATTENTION TO THE FACT THAT WE HAVE

THE LARGEST AND MOST CAREFULLY SELECTED

STOCK OF

DRY GOODS

Of Newest Patterns,

FANCY GOODS, TRIMMINGS, ETC.

OF THE LATEST STYLES,

EVER EXPOSED FOR SALE IN THIS COUNTY.

San Francisco firms are offering no greater inducements to buyers than our House, where every taste can be gratified, where the system is a SINGLE PRICE one, and where goods are marked down so low as to barely leave a living profit.

San Jose Institute

Business College.

A Day and Boarding School for Both Sexes.

The Faculty consists of a corps of eight Teachers, secured with reference to their particular qualifications and fitness for their respective positions.

The Modern Languages, Music, Drawing and Painting, are taught by highly accomplished and experienced Teachers.

The School is graded, having Primary, Intermediate, Grammar and Academic Departments, which are in a flourishing condition, and under the tuition of first-class Teachers.

The requirements of this Institution are similar to those governing schools of the same grade. The sexes occupy different school-rooms and have separate play-grounds, but in recitations are taught together.

The rooms are pleasant and neatly furnished. Boarders are required to furnish their own toilet. References will be required from those who are unknown to the Principal.

The year is divided into two sessions of twenty weeks each, and the sessions into two quarters of ten weeks each.

Connected with the Institute is

Vinsonhaler's Business College

AND TELEGRAPH INSTITUTE.

This Institution has been placed on a sound basis in every particular. The rooms are situated in the San Jose Institute Building. The experience, qualification and reputation of its Proprietor are sufficient guarantees that success will crown his efforts to maintain an Institution that ranks with the first in the country. The school-room is convenient, well-arranged, and ELEGANTLY FURNISHED with BANKS AND TELEGRAPH OFFICES. The celebrated system of Actual Business has been introduced and carried out upon a plan which defies competition.

For full particulars, address

JAS. VINSONHALER.

SURF BATHING.

FUN AMONG THE BREAKERS!

LEIBRANDT'S GREAT BATHING ESTABLISHMENT

ON THE OCEAN BEACH, SANTA CRUZ, CAL.

Over fifty dressing rooms ready for Ladies and Gentlemen.

Private Hot and Cold Salt Water Baths at all hours.

Bathing Suits for hire.

Safety Cables stretched to deep water.

Careful attendants always on hand.

A large substantial Raft securly anchored at a short distance from the shore, for the use of swimmers.

Santa Cruz has the reputation of being the most pleasant watering place on the Pacific Coast.

The Omnibus and private conveyances run from all the Hotels to the Beach at all hours.

PAVENPORT'S LANDING, SANTA GRUZ GOUNTY, GALIFORNIA.

The best of accommodations for Travelers and Tourists.

Apartments comfortably furnished. Table well and abundantly supplied.

A commodious Feed Stable is at hand where Horses will receive careful attention.

A beautiful sandy beach directly in front of the house, affords superior advantages to bathers.

Game and Fish are very plentiful and easily taken.

As a pleasure resort, this locality has no superior.

LEWIS A. UTT, Proprietor.

A GENERAL DESCRIPTION

OF

SAN BENITO COUNTY.

SAN BENITO is bounded on the North by Santa Clara and Santa Cruz; on the East by Merced and Fresno—the boundary-line lying upon the Mount Diablo Range; on the South and West by Monterey County. It is seventy-five miles in length, lying in a direction North-west by South-east, and is one of the newest counties in the State, having been organized only since March, 1874. It is ten miles in width. We judge its superficial surface to be about 750 square miles, or three hundred and eighty thousand acres. A late issue of the Southern Real Estate Circular, however, claims an area of 1,300 square miles.

San Benito was formed from Monterey County. The Gavilan range of mountains, formerly dividing Monterey nearly in the centre, presented an almost impassible barrier to the inhabitants North of the range, shutting them off most effectually from the county-seat, Salinas City. This range now forms the South-western boundary of San Benito, and the North-eastern line of Monterey.

The population of San Benito County aggregates about seven thousand. Probably the actual cash value of property will reach between three and four million dollars. Positively correct figures, however, are impossible at this time, as the county is too young to have obtained correct statistics. In fact we believe some of the taxable property has not yet been transferred from Monterey County—an obstacle sufficient to prevent any thorough investigation of this character.

The principal valleys of the county are the San Benito, formed by the extreme southern portion of Santa Clara Valley; Santa Ana, Quien Sabe, Los Mortes, Tres Pinos, and Hernandez, with portions of Priest and Bitter Water, Dry Lake, Tapo, and Bear Valleys.

San Benito Valley is watered by the San Benito and Tres Pinos Rivers. The soil in the southern portion of the county is a sandy loam, rich and fertile in the extreme. From the peculiar conformity of the land, and the fact that the ocean fogs in summer almost answer the purpose of rain, the soil is naturally productive. Fruit it is impossible to cultivate, the climate being inimical to such growth from the coldness and dampness of the atmosphere. The uplands, however, form somewhat of an exception to this rule; the soil being warm and gravelly, allows of fruit-raising to a limited extent. It can scarcely be said to thrive, however. The cereal products are wheat, oats and barley. In the bottom lands crops are very abundant, and the cultivator is richly and well repaid for the labor of tilling these fertile fields. This valley covers an area of sixty square miles, and contains thirty-eight thousand four hundred arable acres. Almost the entire valley is cultivated in grain, and contains a population of about 2,000 persons, in the agricultural portions of the valley alone.

On the eastern side of the county lies the valley of Santa Ana, fifteen miles square. Although small, this valley, rich in soil, presents an almost unbroken grain field, about 9,000 acres in extent. It is all bottom land, with fine irrigating privileges, derived from the Santa Ana Creek, which serpentines its way, bisecting the valley. It contains about 250 inhabitants.

Quien Sabe Valley is almost entirely devoted to grazing and cattle-raising purposes. The valley land, though never worked, is exceedingly rich and arable. It is now being ditched, for purposes of irrigation, and will hereafter add to the cereal productions of the county. This valley is irregular in form, and its surface is broken with hills. It is an old Spanish grant, and is owned and occupied now by either the grantee or his assigns. Like most Spanish grants, it has been used for grazing purposes altogether, and from the broken character of the ground, with the exception of a small portion of the bottom land proper, it is far better adapted to grazing than agricultural purposes.

The four valleys called respectively Los Mortes, Cayote, Llamitos and Los Aguilos, consolidated, form one sheep range, numbering 24,000 acres, owned by a gentleman residing in San Francisco, named Pablo Baca. This range is called El e Real de las Aguilas Rancho, and was purchased by the present owner from the original grantee, some few years since. The improvements upon the property have been made with no stinted hand, and at no light cost to the proprietor. A handsome house, large and perfect in all its appointments, graces the grounds, surrounded with a garden finely shaded with trees. Water is conveyed to the house through pipes from a neighboring mountain, one [mile distant. The stable is a model, combining all which might be considered convenient, useful, or neat in such a structure. It is also supplied with water by the same pipes which lead to the house. The corrals cover acres in extent, and are fully adequate to the necessities of the range. One of the finest sheep vats in the entire State is on this property, every convenience which a long experience could suggest, having been utilized in its arrangement. There are about five thousand acres of bottom land on this ranch, susceptible of the highest cultivation, and this without any labored attempt at irrigation, there being some fifty living springs upon the property, and three or four streams which continue their course through the entire year, winter and summer. At the present time the stock amounts to twenty thousand head, this number subsisting easily, year by year, on the range. The maximum capacity of the range is probably ten thousand greater, but Mr. B. has made no effort in the direction of discovering the greatest number possible for the range to feed. We understand that Mr. Baca is now holding the place for sale. This may be true or may not, but in any case we envy some one the possession.

Tres Pinos Valley is divided by a creek of the same name. It is a long, straggling stretch of bottom land, and though it may present a large surface for cultivation, it lies in such a manner that one can scarcely estimate it; a cultivated patch appearing here and there, but all disconnected, in most instances, with the creek lying between. It is similar in this respect to the conformation of the country lying between Tres Pinos and Hernandez Valleys, through which we once journeyed, inveighing against, and muttering profanely at the tortuous inclination of the creek, which in a distance of sixty miles necessitated our crossing one hundred times. In both these localities traveling is almost entirely abandoned during the winter months, the creeks swelling to such an extent as to render it extremely perilous. The valley of Tres Pipos is almost entirely given up to grazing purposes. It has a population of about one thousand, considering the valley to extend the full length of the stream.

Hernandez Valley lies at the extreme South-eastern limit of the county, and contains some twelve thousand acres. The land is arable and perfectly susceptible to cultivation, but it is only worked as far as home consumption renders necessary. The reason is perfectly obvious when we realize its distance from railroad connection, some sixty miles. It being impossible to reach a market, freighting by wagon being too expensive, merely sufficient hay and grain is raised to meet the wants of the stock, and to supply the neighboring mines. The valley is prettily situated, elevated to a considerable height in the mountains, surrounded with a heavy growth of timber. About seventy-five people reside here, furnishing a working force sufficiently large to meet the demands of labor.

Priest Valley lies partly in San Benito, and partly in Monterey County, Lewis Creek being the dividing line. The portion lying in San Benito covers an area of about three square miles. It is not an agricultural valley, being illy adapted for purposes of this nature, but possesses excellent grazing facilities. It is all level and well watered, the water however, being of a very inferior quality. Some eight or ten families only reside in this portion of the valley.

Due West lies the valley of Bitter Water, at a distance of twenty miles, which we travel by trail following the creek, the conformation of whose banks, now plunges us into a deep gorge or canyon, now elevates us upon the topmost ridge of the towering mountain range. The entire valley, containing three thousand acres, is owned by a gentleman who is engaged very largely in stock-raising. It is entirely devoted to this purpose, with the exception of an exceedingly small part, which is used for growing hay and grain. The name of this valley has a perfect fitness, realized in the fact that the soil is heavily impregnated with alkalies, imparting to the water the quality which suggested the name. It is really unfit for ordinary domestic purposes, though in the absence of anything better, it finds a use.

Five miles in a Northerly direction, we come upon a grant called Dry Lake Valley. This presents a surface of 1,000 acres, said to be good grain land. In the winterseason the valley, fed by the mountain streams which pour into its basin, forms a veritable lake, which, as spring progresses into summer, by evaporation and other processes, leaves the valley again dry until the following winter. There is no settlement here, but the mountains lying about it are used for grazing. Adjoining this upon the west is Tapo Valley, two thousand acres in extent, also good grain land, although used merely as a stock range. Its water privileges are not great, there being no running streams within its limits. There are no residents here beyond the people necessary to the proper performance of the labor in connection with the range.

Some three or four miles north of Dry Lake is a sister valley, bearing the same name. The two are separated by a low-lying range of hills. This is by far the largest, containing some four thousand acres of land, and a population of one hundred persons. The soil is very fertile, and the entire surface is used for the cultivation of cereals and hay. Neither is it subject to the overflow which inundates the upper valley, the San Benito River forming an outlet, tributary to which are the mountain streams, which in winter eject themselves into the valley. All the surplus water is thus disposed of, an added richness and fertility is imparted by the alluvial deposits from the mountains, and the valley at the same time is habitable.

Proceeding three miles in a northern direction we reach Bear Valley, containing some 800 acres. A consideration for the eternal fitness of things would probably induce an alteration in the orthography of this name, Bear, making it read Bare, as we certainly saw more to warrant this reading than the other. But we fold it away with many another misnomer, and let it rest. Cereals and hay are cultivated to some extent, but hog and poultry-raising are the industries best represented, being considered most profitable. About one hundred and fifty persons reside here—independent of the hogs.

Considering the use and adaptability of the entire county, in its present condition of comparative isolation, it holds out far more inducements to the eattle or sheep-raiser, than to the agriculturist. What it may be in the years to come, when its territory shall be invaded by that great developer, the railroad, it is not difficult to predict. Its fields will teem with the golden grain which will enrich the cultivator, while it adds to the material wealth of the world, by assisting in the production of that article, so necessary, that a scarcity renders multitudes miserable, and reduces countless thousands to absolute pauperism. Young as a county, it promises a brilliant future, and many circumstances point toward a speedy realization of its promise. Joining one of the richest, most populous and best agricultural counties of the State, it cannot but be penetrated by thousands who have visited that county, found land too high, and the territory sufficiently populous. Once within the confines of San Benito, its manifold advantages of soil, climate, natural and perfect irrigation, and last but not least, the exceedingly low figures demanded for land, cannot but detain them. Thus the overflow from a great county will necessarily people this; the demand for railroad extension which will follow upon these accretions to its population will be acceded to, and prosperity will settle upon this community as quietly and quickly as a flock of buzzards upon the expiring anatomy of a Washoe canary.

Then will begin the sounds of rural strife—the strife waged by thrift and energy against nature and her forces; the plowshare will upturn many a stone, for years nestling in undisturbed quiet, and in its vacant place the golden sheaves will ripen in the warm sunlight, the wilderness will rise into the full bloom of a garden, rivaling the noted ones of the world; the hill sides,

empurpled with the ripening grape, embowered in living green, will form a worthy background to a picture excelling the famed glories of Andalusian vales and crowded with evidences of thrift, convincing even to an English husbandman.

HOLLISTER.

The County Seat of San Benito County, is situated five miles from the Northern terminus of the county, fifteen miles from Gilroy, and enjoys all the advantages of a railroad terminus, without being one. The reason for this is two-fold. Quite a stop must be made here to allow the engine to take in water. Tres Pinos, the real terminus, offering no advantages for this purpose, the want must be supplied at Hollister. This affords a halt long enough for travelers to at least provision themselves, at a station offering greater facilities than Tres Pinos. Again, Hollister is the largest and most important town of the county, and residents of the county naturally take their trade where they can avail themselves of the benefits resulting from competition. The town contains about seventeen hundred inhabitants, is picturesquely and advantageously situated, in the centre of a district bearing abundant evidences of richness and extreme fertility. Stretching away to the North, in the direction of San Juan, is the old San Justo grant, recently cut up into farms, under the auspices of the San Justo Association. In the Northern part of the town towers a lofty mountain, commanding a view of some four hundred square miles. Hollister boasts some very fine buildings, and has a number of large stores, provided with everything to meet the universal want.

Religious denominations are quite well represented, there being two Methodist Churches, one Presbyterian, one Congregational, one Campbellite, and one Catholic.

Secret, Social and Benevolent Orders are also established here in some profusion, there being lodges of Freemasons, Odd Fellows, Redmen, Good Templars and Grangers. Also a club devoted exclusively to social purposes. Among its practical organizations, the town boasts a good fire company.

There are well attended Public Schools, so graded and systematized as to render them of practical use and benefit. A large school building has just been finished for the purpose of collecting all the public school organizations under one roof. There are also two Private Schools, presided over by thoroughly competent preceptors.

Two weekly papers are published here, the San Benito Advance, and Hollister Enterprise. They are exclusively devoted to county interests, advocate all measures for its aggrandizement ably, and, in every sense, are well conducted, wide-awake sheets.

One of the best flouring mills in the State is located here, and doing a thriving business. Several commodious grain warehouses are distributed conveniently about the town, and, until recently, a large brewery occupied a site near the Railroad Depot. This, however, was burned a short time since, nor are we positive whether or not it has been determined to rebuild.

Four hotels and several restaurants suffice to tickle the palates and slightly disconcert the digestive organs of all who fall into their hands. The Montgomery House is well worthy of patronage, the proprietors trying, by every means in their power, to render the stay of guests comfortable and pleasant. Two lumber yards and one brick yard furnish, at home, the material necessary for building. The town has also two public halls. Two banks are here doing business, one of which possesses a building, fire-proof and well adapted in every respect to the conduct of a banking business, besides being an ornament to the town. This is the Bank of Hollister, an institution with a good capital, doing a safe and profitable business.

SAN JUAN

Boasts an antiquity nearly equal to that of any town in the State, it having been founded by the Franciscan Fathers, at the private expense of the King of Spain, on the 24th of June, 1799.

was a mission for the conversion of Indians, and the place of its foundation was called Popeloutchom, which received the name of San Benito. The mission was given the name of San Juan Bautista, or St. John the Baptist. The mission was founded with the usual ceremony, the planting of a cross upon the place, and the performance of mass.

In 1803, June 13th, the corner stone of the present Church structure was laid. Some nine years elapsed, however, before the building was completed sufficiently to warrant a dedication to its work. In 1862 a Convent was established by the Sisters of Charity. This was also an Orphan Asylum, and remained under the control of the Sisters until June, 1870, since which time it has been subject to a Catholic organization calling itself "Nuns of the Immaculate Heart of Mary."

The Church has been improved from time to time, as repairs were rendered necessary. The belfry supports two bells, one cast in 1809, in Lima, Peru, the other cast during the present year, by W. T. Garratt, of San Francisco.

Adjoining the Church is an enclosed piece of land, containing scarcely an acre, in which, from the foundation of the mission up to the year 1864, nearly 4,000 bodies have been interred.

A new Cemetery is to be laid out in the northwestern part of the town. Let not the location of a new burial ground deter people from visiting the locality. The original pear trees, planted at the time of the founding of the Mission, still cumber the ground, and resemble lofty oaks or pines, to such an extent have they outgrown themselves.

San Juan is seven miles from Hollister, in a westerly direction, connected only by wagon road. There are some twenty business houses, embracing shops of all kinds, the business of the town being confined to the immediate neighborhood. The inhabitants number 500, and that some of them, in the late struggle, were arrayed against local option, is attested by the fact of the brewers' apparent thrift; and that two "Sample rooms" adorn every corner.

The Convent referred to above is located here; we believe a school is also connected with it.

SAN BENITO

Consists of a Hotel and Store, a seemingly unimportant place, but from its location in a sparsely settled district, it forms the trading post for a belt of country fifty miles in diameter. It is Southeast from Hollister thirty-five miles, and contains only two families.

TRES PINOS

Occupies a site upon an elevated plain, and has the appearance of having been built over night, everything wears such an appearance of newness. This town has assumed the name formerly belonging to Paicines. It is the present terminus of the Southern Pacific Railroad, contains a population of 75 persons, and consists of two way houses, a store, blacksmith shop, tin shop, vegetable store and butcher shop. The saloons we were convinced were sufficiently plentiful, yet we reget to say we neglected to enumerate them.

PAICINES.

An old friend of this hamlet, might fail to recognize in the Paicines of to-day, the Grogans of yesterday, or the Tres Pinos of the day before, yet such it is, having undergone the changes mentioned above. Its welfare seems not to have been augmented by the assumption of new names, and one finds nothing to engage the eye save cross roads, graced by a hotel, store, saloon, and blacksmith shop.

Paicines is 12 miles South-east of Hollister, and has a population of twelve persons. It lies at the junction of the San Benito and Tres Pinos Rivers. This was the scene of the murderous outrage perpetrated by Tiburcio Vasquez, shortly before his capture. It was his last; is it too much to hope it may remain so?

CORRESPONDENTS.

San Jose-San Jose Savings Bank. San Francisco-Anglo Californian Bank, and Grangers' Bank of California. New York-J. & W. Seligman & Co. London-Anglo Californian Bank,

This Corporation having, at a large outlay of money, erected a commodious Fire-proof building, and furnished the same with a very strong, fire-and-burglar-proof vault and safes, together with all the appliances of a first-class Banking House, and having an ample capital and extensive connections, is now prepared to offer unequalled facilities for the transaction of all kinds of legitimate Banking business. The list of Stockholders presented to the public is a sufficient and unquestioned guarantee of the solidity and financial strength of the Bank, and is also an indication of the high and honorable character which it shall maintain. Every reasonable accommodation will be extended to customers, and nothing shall be left undone to warrant the confidence, and merit the patronage of the public. All business transacted will be

STRICTLY CONFIDENTIAL,

And all business in trust will receive the most prompt and careful attention. Accounts solicited from Merchants, Farmers, Mechanics, Societies, Capitalists, and others.

PROPRIETOR

PACIFIC AVENUE, SANTA CRUZ, CAL.

Ambrotypes, Tintypes, Ferrotypes, Cameos, Medallions, Rembrandts, Photographs, Ivorytypes, Cabinets, Vignettes, Porcelain, Locket and Ring Pictures, Finished in the Highest Style of Art.

The Celebrated "Glace" or "Souvenir Picture," which is all the rage at the East, is made at this Gallery.

Stereoscopic and Photographic views of Farms, Camps, Buildings, etc., taken at short notice. Pictures of Ladies or Gentlemen on Horseback, or in Carriages, taken successfully.

Being the first to introduce the "Floating Photo." in Santa Cruz, I possess superior facilities for excellence in that department.

Enameled Pictures, which possess a finish superior to all others, are here made a specialty.

Photographs enlarged to LIFE SIZE. Negatives retouched according to the latest methods. Photographs "Burnished" or "Colored," when desired. Stereoscopic Views of Santa Cruz for sale.

All sizes of Latest Style Frames constantly on hand, and sold at Lower Prices than elsewhere. Great care used in taking Pictures of Children and Babies. All Work Guaranteed.

SILVER MILLS

San Lorenzo River, Santa Cruz Co.,

CALIFORNIA,

This Mill is situated on the line of the San Lorenzo Flume, and manufactures Sawed Lumber, Shingles and split stuff of all kinds. Also, cuts Oak, Madrona, Fir, Red and Cord-wood.

Mr. P. is part owner, and is managing the New Tannery attached to the Mill.

This TANNERY

Is built on an improved principle, and has a capacity of 200 hides per month, easily increased to double this amount. It is in the heart of the Tan Oak region, where bark is only \$8 per Cord.

Mr. PEERY is also proprietor of the

Saratoga and Pescadero Toll Road.

Leading through a dense red-wood forest, where can be found magnificent Picnic, Fishing and Hunting Grounds, abounding in all kinds of Game, Trout, &c. It is in good repute as a Summer Resort.

The road intersects the Santa Cruz Co. Road at W. A. Chandler's, two miles above Bowlder Creek, Bowlder Creek being the Post-office.

Call and test the Truth of my Assertions.

J. W. PEERY.

MORSE'S

MONTGOMERY STREET,

SAN FRANCISCO, CAL.

ALT STYLES OF ARTISTIC PHOTOGRAPHY FINISHED IN A SUPERIOR MANNER.

The EXCELSIOR Improved?

This mill was awarded the First or Cash Premium at the State Agricultural Fair at Sacrameolo in 1672, the only time ever exhibited there, and has been awarded a LARGER NUMBER of premiums at the Mechanics' Institute Fairs held in San Francisco, than any other Wind Mill in the State.

We are the inventors of the single Crossvane Wind Mill. Its increasing popularity has induced other parties to make an imitation, and sometimes use its name,

"EXCELSIOR."

For this reason we have caused it to be registered in the United States Patent Office as our Trade Mark.

We hereby caution all persons against using said name appertaining to Wind Mills.

The Excelsion

Is both adjustable and self-regulating, is very substantially built, and with reasonable care will last for twenty or more years. Their construction is so simple that they are easily erected by those who are not mechanics. A boy ten years of age can easily manage them. More of them are being used by the Railroad lines in this State, than of any other kind, which fact indicates the seeming choice of the Railroad Companies.

They are made in twelve sizes, from twelve feet to forty feet diameter of wheel. A larger stock and assortment kept on hand than can be found elsewhere in the State.

We also manufacture three styles of Sweer Horse-Powers, viz: A single-geared for one horse, a double-geared for one horse, and a triple-geared for two horses. All these machines have applied to their sweeps the patent rubber spring or cushion, an improvement which really adds twenty per cent, to their value,

We also manufacture Single-action Brass Pumps, especially designed for Wind-Mill Work.

WATER TANKS, ALL SIZES, MADE TO ORDER.

Address Excelsior Wind and Horse-Power Works,

NOS. 211 AND 213 MISSION STREET, San Francisco.

ATWOOD & BODWELL, Proprietors.

A GENERAL DESCRIPTION

OF

SANTA CRUZ COUNTY

SANTA CRUZ COUNTY lies upon the northern shore of the Bay of Monterey, and, although territorially one of the smallest counties of the State, in the importance of its manufactures, it is second only to the County of San Francisco. It is bounded by San Mateo on the North; on the South by the Bay and County of Monterey; by Santa Clara County on the East, and on the West by the Pacific Ocean. In outline it is long and narrow, being thirty-four miles in length, by fourteen in breadth. Following the conformation of the coast, it has a sea-line fifty miles in extent. The entire county lies between the summits of the Gavilan, or Santa Cruz mountains, and the sea, and is one of the most mountainous of the coast counties. In its area are about 304,640 acres. Of this 40,000 acres are of the richest bottom land, lying between the mountain ranges. The irrigation is natural and perfect; constantly running streams keep up their murmer throughout the summer, and announce themselves with a dash and roar after the inaugural of winter rains. The terraced plateaus, formed by the repeated uprisings of the land, extending along the entire coast, and inland to the skirt of the woodland, present 50,000 acres of good agricultural land, easily accessible to cultivation. It is true it varies somewhat in degree of fertility, but generally speaking, amply repays the husbandman. The residue of the county, in extent some 200,000 acres, is either grazing or forest land. The cleared hill land is well suited to the purpose of stock-raising, while the timber land is densely covered with magnificent growths of Redwood, Oak, Pine, and the beautiful Madrona. The most important water courses within the county are the San Lorenzo River, the Soquel, the Aptos, Sal Si Puedes, Pajaro, (or bird) which flows along the boundary of Monterey County, and the Pescadero. Of these, the San Lorenzo is the largest, passes nearly through the centre of the county, and empties into the Bay of Monterey at Santa Cruz. The Soquel enters the bay about four miles further South, while the Sal Si Puedes and Aptos, discharge their waters into the bay from a point still South of the Soquel. The climate is exceedingly varied. Places separated but by a distance of a few miles, differ as materially in temperature and productions, as do the climate and productions of the North differ from those of the South of France. In localities sheltered from the biting breezes of the sea, we have seen the rarest flowers and tenderest plants, luxuriating in the open air, healthy in growth, delicate in coloring, delicious in perfume; while at a distance of not half a mile was a bleak barren knoll, guiltless of even the most remote attempt at vegetation, vigorous or otherwise. Grains and fruits which grow in other parts of the State flourish here, if we except those tropical in nature—the orange, fig and olive. The vine must overcome an elevation of seven hundred feet, above the sea level, before it can hope to flourish. This seems no misfortune, and is surely no drawback upon the industry of the viniculturist, if we heed the vine-growers of Europe, and consider that years upon years of experience gives weight of added wisdom to man's words. Old world vine-growers say that uplands are better adapted to the culture of the grape; that the vine is more productive and the flavor of the fruit far preferable to that grown in the valley.

The population of Santa Cruz County amounts to nine thousand three hundred, while the taxable value of its real estate reaches \$4,038,621.

The principal valley of the county is the Pajaro, or El Pajaro, as it was originally designated. This, prior to the advent of Americans, under the ancient regime of the Mexican, was used exclusively for cattle-grazing. In 1851 its total population did not exceed 50 persons.

The adobe hut was the only kind of architecture to be met within the radius of the valley, and the branding or the slaughter of their cattle furnished the only occasions when the almost

unbroken monotony of their lives gave place to temporary excitement. Life here, then, was primitive, very primitive. Few wants were felt, and those easily supplied. It was only necessary to hie away to the sea-port, exchange a few hides, and return home again laden with those necessary adjuncts to Mexican happiness, viz: a breadth of calico rendered unsalable in Christendom by its nightmare hues, and a case of perfumed water.

But the day of idle case has gone by; no longer does a pastoral hush reign throughout the quiet vale; not now do the fields lie untilled and fallow beneath the trampling hoofs of numberless cattle; nor does the daring vaquero with his wild halloo wake the echoes of the hills, as with a rush like an ocean tempest, the moving, living mass debouches into the plain below. No! that hardy adventurer, the Yankee, from beyond the sea, has come among them, with the thrift and energy born in a new world of a new people. He has introduced among them arts of which before they never dreamed; he has caused to spring from the soil fruits more valuable, far, than the increase of their enormous herds; he has allured to their coast the traffic of all nations; he has established some of the grandest industries for which a glorious country is famous; he has caused to rise from the plains, once lying waste, cities noted for their beauty and prosperity, and everywhere, through the exercise of his practical gifts and indomitable will, he has dotted the valley and grassy slopes with happy homes, and embosomed them in plenty. The same determination which had so persistently driven the red-skin still nearer the sinking sun, crushed out the embers of his camp fires and erected upon their sites populous cities, was to make another conquest; and another weaker race faltered and went down in the march of improvement, and the advance of civilization.

Pajaro Valley is from 12 to 15 miles in length, and has an average breadth of about 7 miles. It is by far the richest land in the county, years having occurred when the yield of wheat amounted to from 90 to 100 bushels per acre. The average yield of the crop is said to amount to 35 bushels. Potatoes, beans, and all vegetables grow luxuriantly. This valley is said to produce its largest crops during the dry seasons. The soil is, mostly a wet, rich, black adobe, with an underlying

pan of clay, at from ten to twelve feet from the surface.

Fruit trees of all kinds, if we except peaches, thrive vigorously, and bear abundantly.

The home market is profusely supplied with strawberries, and all varieties of small fruits, which are exclusively of home production.

Small game, such us hares, rabbits, quail, deer, etc., is abundant, while the streams teem with trout, and the lakes are alive with perch. Surf fish are taken at the various landings, while flounders, mackerel, date fish, abalones, etc., abound.

Hops are raised to some extent, and the cultivation promises to become large and lucrative.

But the county's chief interest is in connection with manufactures. And for this purpose it is admirably adapted, possessing as it does an inexhaustible water-power, furnished by the mountain streams tributary to the ocean. These are short, with a good fall, and are utilized to a great extent.

Among the mountains, and especially near the streams, growing side by side with the spruce and redwood, and resembling them somewhat, at the first glance, is the Torreya, or what is generally termed the California nutmeg. Upon closer examination it presents features quite distinct from its fellows of the forest, its leaves being more fibrous and pointed. The resemblance of its fruit to the nutmeg is confined to appearance alone. The tree grows to various heights, ranging all the way from 50 to 100 feet, and in some cases has been known to achieve a diameter of three feet. Squirrels and rats feed upon the nut, which is similar to the "pecan." The wood is highly prized for its aromatic quality. It is quite valuable, is used in the manufacture of glove boxes, vases, etc., and is said to equal either the camphor or sandal wood in the retention of its fragance. It possesses also the qualities of elasticity and durability. It was named after the eminent botanist, John Torrey, of New York, who died some months since. Up to the present time, only four species of this wood have been discovered in the entire world, these being widely separated, one growing in China, one in Japan, one in the Southern States, and one in California. For ornamental purposes it can scarcely be excelled. Its foliage is of the deepest green, its branches droop gracefully, and the upper and the under portions of the leaves afford a very pleasing contrast.

In this County, during the year of 1874, 8,100 acres were sown to wheat, and 5,300 to barley. The number of enclosed acres in the County aggregates 70,556, while the number cultivated reaches 19,971.

In 1873 the entire live stock of the county amounted to 23,153 head.

Four grist mills were in full operation, turning out, for the year's work, 21,893 bbls. of flour, besides grinding 3,286 bushels of corn.

Twenty saw mills cut, during the same year, 27,600,000 feet of lumber, and made 9,500,000 shingles. The number of saw mills has been considerably increased since that year.

Fruit trees to the number of 49,488 were in full bearing, while grapes were being produced upon 262,275 vines. From this product was manufactured that same year 70,000 gallons of wine, and 1,200 gallons of brandy.

Four breweries, also, added to the fluids of the county 90,660 gallons of beer, the result of the year's labor.

Add to the above list four lime kilns, in active operation, and two about to be constructed, eight tanneries, of unusually large capacity, one fuse manufacturing establishment, a beet sugar factory, and a powder mill, and we have an evidence of industry which is simply surprising, taking into consideration the comparitive youth of the county, the distance which separates it from the metropolis of the coast, and the fact that until recently the county has possessed no railroad facilities whatever. As the population augments, and railroad routes are opened up, it is not too much too expect that these interests will increase to double or treble their present proportions.

SANTA CRUZ,

The County seat, has a population numbering about 3,000 inhabitants, and is situated on the Northern shore of the bay of Monterey, in a little nook, formed by a spur of the coast range, which projects a considerable distance into the bay. It is surrounded by mountains upon all sides, excepting on the Southeast. On this side it is open to the bay, along which is a stretch of beautiful sea beach.

The view from the higher portion of the town, looking toward the bay, is inexpressibly beautiful, and in the language peculiar to panoramic show bills, must be seen to be appreciated.

At a distance of thirty miles across the deep blue waters of the bay, is the town of Monterey, occupying a very similar site. It is sequestered in dark green foliage, relieved against the grey granite of its prisoning hills. The grey is overtopped by the brown of the bare mountains, and the brown crested with a dark ridge of forest. Stretching to the right is the limitless expanse of the Pacific, its rippled surface transmuting the golden rays of the sun into silver.

To look from these heights upon the opposite town and its surroundings, is to contemplate a gem, whose setting but serves to impart an added lustre to its brilliancy.

Santa Cruz is built upon the lands of old Santa Cruz (Holy Cross) Mission, from which is derived the name of the county. The Mission was founded in 1791, and near the site of the old building has been erected a handsome Catholic Church. In its origin it is Mexican, but has been re-constructed by the Americans, their successors in possession.

Few traces of the old adobe structures remain, and even the double row of beautiful willows—once forming the fence of the old mission garden, and long after gracing the centre of the main street—has been destroyed in deference to the wants and requirements of the young and growing city.

Though possessing the best harbor in the county, it is a mere roadstead, exposed to the South wind, and is by no means safe during the winter months, when that wind prevails. The wharf accommodation is very good.

An effort is being made to obtain an appropriation for the building of a breakwater, which will render the harbor safe and secure at all seasons.

The educational advantages enjoyed by Santa Cruz County are very great; there being 28 school districts, having an attendance of 3,008 pupils. The buildings are such as render them most convenient, and best fitted for school purposes, and the county has liberally invested in such property. A high school is in session in the town of Santa Cruz, has an able corps of in-

structors, is largely attended, and has the effect of stimulating the youth of the county to constant exertion by its competitive system.

The town of Santa Cruz has more the appearance of a smart Eastern manufacturing city, than the mongrel town, half Mexican, half American, peculiar to California. As regards

PUBLIC BUILDINGS.

The substantial rather than the pretentious seems to be the prevailing taste.

The Court House is roomy, makes a fine appearance, is surmounted with a dome, and is entirely occupied by Court and County offices.

Odd Fellows' Hall is a new building, two stories in height, with a mansard roof. Surmounting the entire structure is a clock tower. The building is sightly, well constructed, and an ornament to the city. Some of the churches, too, are very pretty structures.

The St. Charles Hotel is a large frame building, modern in construction, and in the introduction of all conveniences. The internal accommodations are in perfect unison with the neat exterior. All the appointments of table and room are unexceptionable, and patrons are shown every possible attention.

The Ocean House is a conspicious, well finished two-story brick building. The apartments and table are well furnished and supervised. Guests receive prompt and polite attention.

The Baptist, Methodist, Congregational, Episcopal, Unitarian and Catholic denominations, all have church edifices.

Temperance reform in Santa Cruz, seems to be taking the most rational course, and one which is consistent with the accomplishment of good work. Under the auspices of the ladies of the Temperance Union, a free reading room has been opened, located in the most convenient portion of the town. It occupies two rooms on the ground floor, and everything bodes fair for the lasting and perfect success of this undertaking. It is an advance in the right direction, and cannot fail in being productive of good results. We are always enthusiastic wishers for the success of any enterprise favored by the ladies, but in this case we go further, and give it our warmest sympathy as well.

Santa Cruz has two weekly papers, the Sentinel and Enterprise. They are well conducted, liberal sheets, and enjoy a large, well deserved circulation.

The town is well lighted with gas,

Quite a large number of the

MANUFACTORIES,

For which the county has become famous, are located here. Among the number are three tanneries, one flour mill, one feed mill, two machine shops and foundries.

As for comfortable and well conducted

STAGES,

The traveling public is well provided. There are two lines running from Santa Cruz to Watsonville; one from Santa Cruz to Soquel and Watsonville; one from Santa Cruz to San Jose, by way of Lexington; one from Santa Cruz to Santa Clara, by way of Saratoga; and one coast line Stage, from Santa Cruz to Pescadero. Two Express lines also are established between Santa Cruz and Soquel.

The most delightful place we visited while about Santa Cruz, we chanced upon while aimlessly roaming one day upon the sea beach. This was the Linda Vista Cottage, a cozy, comfortable, homelike little place, under the proprietresship of Madame LeMare. Our footsteps were arrested at her door, and in half an hour we felt as much at home as though we had been a guest of the house for months. The establishment is conducted upon the European plan. The apartments are furnished in such a manner as to minister to the perfect ease and luxury of the occupant. In the drawing room every thing has been selected and disposed with a view to please the eye, while a new and elegant "Weber" Piano offers opportunities for delighting the ear as well. The dining room and kitchen are both separated from the main building, a provision which administers greatly to the comfort of patrons, as no odors from the cook's laboratory can possibly reach

them, until the covers are removed at dinner. A disciple and countryman of Monsieur Blot, has charge of the cuisine, and every dish, which comes smoking from under his hand, attests the high order of his attainments, and proclaims him an undoubted chef. Here families can enjoy as great freedom as though occupying their own town house, and can live, move, and have their being without being reminded, at every breath they draw, of that poor Mrs. B., who is so sensitive to the slightest noise, and who is, really, in such delicate health. A separate building is allotted to children and nurses, where they can romp and make all the noise they please, disturbing none, and keeping all the row to themselves. A most desirable acquisition to the comfort of those who visit this place for the benefit of the salt water bathing, will be found in a private bath house which belongs to the establishment. This gives Madam LeMare a decided advantage over all other establishments of this kind, and offers to visitors all the attractions of privacy, cleanliness and economy. Croquet grounds and swings are upon the premises, and from the front of the Cottage can be obtained a fine view of the town, surrounding country, and bay.

In leaving Santa Cruz by the main county road, leading to Watsonville, we pass over a substantial covered bridge, recently erected across the San Lorenzo River, at a cost of \$14,000.

Proceeding on this road four miles from Santa Cruz we reach

SOQUEL,

Quite a thriving little town, containing a number of stores, a flour mill, two blacksmith and wagon shops, a tannery, and the works of the California Beet Sugar Co. A Congregational Church suffices to accommodate the religiously inclined.

The California Beet Sugar Co. plants each year 1000 acres of beets. The factory works from seven to eight months each year, the daily consumption of stock amounting to from 50 to 60 tons. The product per year amounts to, approximately, 800 tons of sugar. The company has a paid up cash capital of \$250,000, and holds a lease of its present premises for ten years. For the proper performance of their work, they have two engines of a capacity of 40 horse-power each, four 8 horse-power engines, and 5 steam boilers. They consume 5,000 cords of redwood per year, have a blacksmith and cooper shop, a gas house and a stable which will accommodate twenty horses, besides dwellings for their employees. About eighty men are employed, and the article mostly manufactured is that known as cube sugar.

On the main road, about one and a quarter miles from Soquel, we pass Porter's Tannery. About 25,000 hides are tanned here per year, mostly upper leather, and about 1,400 sides of harness leather. This establishment has a branch at Corralitos, which turns out, per annum, 7,000 sides of sole leather.

Keeping the same road a distance of one mile and a half further we reach

APTOS.

This town is about seven and one half miles East from Santa Cruz, and contains three hotels, one store, a blacksmith and wagon shop. It also contains a school house and a Catholic church.

Aptos is situated at the mouth, and at the junction of the two branches of Aptos Creek. The county road crosses each branch of the creek by bridges of one hundred, and one hundred and twenty feet span, respectively, at a height of fifty feet from the water. The railroad also crosses here, and a depot will be located in the town.

Mr. Claus Spreckels, a gentleman of large means, has recently purchased a ranch of about 6,000 acres, and purposes building a town which shall far excel Santa Cruz.

Aptos has a good wharf. The tide has a rise and fall of six feet, and at half tide there is a depth of about three fathoms of water, allowing vessels of one hundred and fifty tons to take or discharge cargo.

Mr. Spreckels is intending to construct a mile race track here, and is at present engaged in arranging the gounds about his hotel. A fine beach extends to Watsonville, which at low tide furnishes a magnificent carriage-way. Immense quantities of sugar beets are raised in this vicinity.

SANFORD'S STATION,

About seven and one-half miles Southeast from Aptos, affords a momentary rest for stage passengers, it being a relay station for the change of horses. The two saloons keep fresh buckets of water conveniently disposed for insides and outsides, but, though every one gets out here, ostensibly for the purpose of stretching his legs, and though with a wonderful unanimity of feeling they all stretch them in the direction of the aforesaid saloons, the contents of the buckets seem never to be disturbed. One can never detect a ripple upon their glassy surface. We imagine the water must be bad; we longed to test it, but for sanitary reasons denied ourselves the pleasure, and tried ——— "suthin" else.

Two and one-half miles Southeast of this station is the settlement of

WHISKEY HILL,

An euphonious name, not likely to be forgotten by one weak enough to proceed from its contemplation to an analysis of that article from which it is derived. We have heard ascribed to it, by an undoubted authority in these matters, the fiery quality of that far-reaching "Jersey Lightning," and a flavor similar to a concentrated extract of "bug juice." He states it, furthermore, to be instantaneously fatal to any, save the "agua diente"-loving Mexican, and, in substantiation of this statement, related a little tale of an Indian who once ventured upon it, and became a sudden martyr to the doctrines of cremation.

Here are two general stores, two blacksmith and wagon shops, two saloons and a market. Two miles from Whiskey Hill, or Poteen Hummock, is the town of

WATSONVILLE,

Which is situated in the centre of the Pajaro Valley, upon the Northwestern bank of the river of the same name. It contains a population verging closely upon two thousand, and has been an incorporated town for seven years, the legislature having made the necessary enactment in 1867. A plaza, well shaded and laid out, enclosed by a tasty fence, marks the central portion of the town. The town bears the name of one of its early and most respected inhabitants, Judge Watson.

It is well shaded, the streets are mostly regular, and this, together with the fine appearance of the buildings, impresses strangers very favorably.

Watsonville is well provided with schools. District school No. 1 is a substantial building, erected at a cost of four thousand dollars. It is divided into grammar, intermediate, and primary departments, and is furnished with all modern improvements.

Gas works have been established, and the town is supplied with an article made from gasoline. Watsonville has four churches, viz., a Methodist Episcopal, Presbyterian, Latter Day Saints, and Roman Catholic. These places of worship are substantial, small, not inelegant in appearance, and are furnished to ensure the comfort of worshippers.

The town has several secret organizations, and the wives of the Benedicts, in that community, are never obliged to hunt about for a "causa belli." A night passed at the club or lodge, rouses their indignation, and Mrs. Caudle rides rampant upon an opportunity.

Watsonville has a large number of fine brick blocks, very many beautiful private residences, and several fine hotel buildings, the largest and most commodious of which is the Mansion House. The building is ninety feet by one hundred and ten, is situated on Pajaro Street, and from the upper windows is obtained a fine view of the entire valley. It has sixty-five rooms, all of which are supplied with gas and water. The building is three stories in height, with a mansard roof. A. W. Billings, the proprietor, supervises all its affairs, is a very popular gentleman, and under his management the hotel has achieved an enviable reputation extending throughout the State.

The Central Hotel was erected last year by Mr. J. C. Syme, who is now conducting it. The building is a wooden one, two stories in height. The furniture is all new; all the rooms are furnished with gas.

The Livery Stable of Morgan & Kennedy adjoins the above-named house, where is kept a good stock of horses, carriages, etc. The Washington Hotel is also situated on Pajaro Street.

Fronting the plaza is the old and popular establishment known as Scott's Boarding House. For the past twenty years, Mr. and Mrs. Scott have catered to the wants of a hungry public, and too many people testify to their kindness and hospitality, to make a word from us necessary.

Watsonville has two lumber yards, two brick yards, and a steam flour mill, owned and conducted by C. L. Thomas, which has three run of stone, with a capacity of 100 bbls. per diem. It runs nearly the entire year. A pork-packing establishment is also doing business here, and a lager beer brewery supplies the community with a beverage which the Germans have labored so hard to convince us is not intoxicating.

Anson Harris has a grain cleaner, which we understand is doing wonders in the warehouses of Santa Cruz. It is used especially for the purpose of cleaning wheat for seeding purposes. One paper, a weekly, is published here, called the *Pajaronian*, devoted almost exclusively to local interests.

CORRALITOS

Is a small village eight miles from Watsonville, in a northerly direction. Beyond the fine water-power furnished by Corralitos Creek, there is not much for which it is noticeable. The Corralitos Flour Mill has two run of stone, is driven by water-power, and has a maximum capacity of 100 bbls. per day.

The climate is mild, and none of the fogs prevail, so common to the coast. Fruit and vegetables, together with small fruit, are successfully cultivated.

FELTON

Is a thriving hamlet, 6 miles north of Santa Cruz, has two general stores, a blacksmith and butcher shop, two saloons and a hotel, also a fuse manufacturing establishment.

In the environs of the town are three saw mills and two lime kilns. Messrs, Blum & Seelye purpose erecting a lime kiln very soon in this neighborhood.

Many people are attracted hither by the fame of the large trees growing in the vicinity, the largest of which is said to be twenty feet in diameter. The Big Tree House, so called from an enormous oak which stands before the door, is a capital hostelry and entertains many visitors.

From here we continue in a northerly direction for a distance of seven miles, to

BOULDER CREEK.

The road leads us by several saw mills, not, at present, working. One of these, having a tannery connected, is owned by Mr. Peery, who intends beginning operations, actively, in the Spring. All along the entire road, grow enormous pine and redwood trees, measuring from six to twelve feet in diameter. They furnish a grateful shade to the wayfarer.

The confluence of Boulder and Bear Creeks with the San Lorenzo River occurs at this point, forming what is expressively termed the "Turkey Foot." The Bear Creek road, leading to Lexington, Santa Clara County, the toll road, owned by Mr. Peery, leading to Saratoga, also-Santa Clara County, here form a junction with the Boulder Creek road.

The scenery on these roads, but more especially the Saratoga road, is full of wild grandeur. The primeval forest is broken here and there by little clearings; the solitude is almost death-like, and the majestic giant redwoods, seeming to pierce the sky, force upon one an utter and complete realization of his comparative nothingness. These are capital surroundings in which to learn the lesson of humility. From the summit, upon a clear day, Santa Cruz, Monterey, and Santa Clara Counties lie naked to the eye; while far away, huddled beneath its canopy of smoke, into an indistinguishable mass, like a huge blotch upon a fair surface, lies, half exposed, half concealed, the metropolis of the coast.

The town of Boulder Creek is a mere hamlet, comprising one hotel, one store, and a dwelling house. One saw mill, not working, is in the vicinity of the town. This locality is a favorite one with sportsmen, game and fish being plentifully abundant. A flume is in process of construction, from the San Lorenzo River, some four (4) miles above Boulder Creek, to

Felton. The flume is to be what is termed a V flume, is to be built along the bank of the river, and will be used for the transportation of cord wood, and lumber of all descriptions. The entire length will be from nine to ten miles. We also understand that, after the completion of this, branch flumes are to be run up Bear and Boulder Creeks, connecting with the main flume. In conjunction with this, to transport the product thus realized to a ready market, a narrow gauge railroad is projected from Felton to Santa Cruz.

DAVENPORT'S LANDING

Is situated upon the coast, fourteen miles Northwest of Santa Cruz. The foot hills along the coast, between here and Santa Cruz, are used exclusively for dairying purposes, while in the coast range may be met grain and wood farms and vineyards. This portion of the county is very thickly settled, nearly every quarter section being taken up.

The village of Davenport's Landing comprises two hotels, two general stores, a blacksmith and butcher shop, a ship yard, wharf, and four dwelling houses. This is a large shipping point for the lumber milled in the vicinity, also for cordwood and posts. It is the natural outlet for the entire water shed of this portion of the county. It is the best roadstead in the county, with the exception of Santa Cruz. All kinds of salt water fish are taken here in profusion, also abalones.

There are many places in this county of real interest to the traveler, and no one should visit it without an effort, at least, to see localities impressive from the character of their beautiful and grand scenery. Among these is

BERRY'S FALLS,

located on Big Creek, 17 miles Northwest from Santa Cruz. The falls are situated in an exceedingly rugged, deep canyon. The most considerable fall has a perpendicular descent of eighty feet.

AT WHITE'S SUMMER RESORT,

situated on Battle Mountain, twelve miles Northwest from Santa Cruz, the rocks are piled in confused splendor, and the imagination easily conjures up ancient castles, whose battlemented turrets once frowned down a grim defiance, where now remains naught but evidences of decay and desolation.

THE MAGNETIC MINERAL SPRING,

situated at Vine Hill, eight miles from Santa Cruz, on the San Jose road, is no more to be lauded for the medicinal property of its water, than for the commanding beauty of its situation. A good hotel is located here; thousands of sufferers have had their pains alleviated by the water; and the tourist, not physically weak, will find the amenities of life here amply repay a visit.

Seven miles from Santa Cruz, also on the San Jose road, in Strawberry Valley, is the

DE WOLF MAGNETIC SPRING.

Its situation is romantic and beautiful, being entirely surrounded by mountains. It presents a warm Southern slope, and the climate is remarkable for its mildness and salubrity. Deer and small game abound, and the creek which has its course through the valley, is well stocked with trout.

But were we to linger about the attractive places of this county, for the purpose of essaying descriptions which should do them justice, we should not only fail utterly in a portrayal of their beauties, but, so inexhaustible is the field, should despair of completion, as every day spent within its limits, unfolded marvels undreamed of before. Feeling, therefore, that we have fallen upon the labor of a Tantulus, we leave this meagre outline merely as a finger post, which, though but pointing the reader to fresh beauties, still serves a purpose, and may not be considered entirely useless.

MAGNETIC MINERAL SPRING

FIRE HILL.

EIGHT MILES FROM SANTA CRUZ, ON THE SAN JOSE ROAD

CHAS. G. FISK, PROPRIETOR.

These justly celebrated Mineral Springs present an absolute specific for cases of Kidney, Liver and Rheumatic Complaints. Paralysis,

Affection of the Optic Nerve, Dyspepsia, Neuralgia,
and all Diseases of the Blood have been

successfully treated.

The water is so heavily charged with magnetism, that a knife immersed in the spring, will, at times, attain power sufficient to pick up a needle.

Looking from the Hotel easterly, the view of the mountain vineyards and surrounding hills is magnificent, and only surpassed by that from "Bay View," "Mountain Valley View," and "Shell Point," to which places easy graded roads have been made.

On the North-east, distant about fifteen miles, is Mt. Laura Puetta; Southerly, in plain sight, is Mt. Carmel, Salinas Valley, the Monterey range of mountains, and the glistening expanse of Monterey Bay; large groves of Oak, Redwood and California Laurel afford abundant shade The elevation being 1,200 feet, gives a purity of atmosphere not to be found elsewhere.

Every variety of grapes and fruit can be grown in profusion; game and fish are abundant in the vicinity. In addition to the Hotel are numerous cabins which are let at mere nominal sums to such as prefer them to the Hotel. Rates are very low, and living expenses are much less here than at watering places generally.

J. H. ARCHIBALD,

IMPORTER, MANUFACTURER AND DEALER IN

Marness and Caddles

WHIDDENS BLOCK, BACIFIC AVENUE,

SANTA CRUZ, SANTA CRUZ COUNTY, CALIFORNIA.

My Motto is "To Live and let Live" and "Equality to All Men"

I am willing to share my profits alike with the Farming Community and the Public Generally.

I feel assured in announcing to the citizens of Santa Cruz and the surrounding country, that if they will, for once, give me a call and examine my well selected stock of goods, and learn my prices, they will be convinced that traveling further to find a cheaper and better article would be an useless expenditure of time and money. As I am constantly importing goods direct from Eastern manufactories, I keep and intend keeping on hand a large stock of

DOUBLE AND SINGLE HARNESS,

Saddles, Robes, Mhips, Mhip Stocks, Jashes,

BRIDLES AND SPURS,

RIDING AND DRIVING GLOVES,

In fact everything belonging to a first-class Harness and Saddlery establishment, all of which I purpose selling on the most reasonable terms. Wagons Neatly Trimmed. None but the best Santa Cruz Leather used. ALL WORK WARRANTED.

A LIBERAL DISCOUNT MADE FOR CASH.

I return my sincere thanks to the public for their former patronage, and hope to merit a continuance of the same.

De WOLFE'S

STRAWBERRY VALLEY,

Seven Miles North from Santa Cruz, on the San Jose Road.

These Magnetic Springs have long been known as an absolute specific for

Dyspepsia, Kidney, Liver and Rhenmatic Complaints, Neuralgia, Paralysis,

AND ALL

Diseases of the Blood.

Strawberry Valley is beautifully situated, being entirely surrounded by Mountains, whose sides are thickly covered with gigantic Redwoods. It presents a warm Southern slope, and the climate is remarkable for its mildness and salubrity.

Strawberries, Blackberries and other fruits are grown in profusion.

Deer and small game abound in the locality. Bear Creek, which runs through the Valley, is well stocked with Trout. On the banks of the Creek are several large shady groves, suitable for picnic parties.

From the summits of the adjoining mountains, the view of the Ocean and the surrounding hills is unsurpassed by any other portion of the State.

All visitors will be well satisfied with a few days spent at this truly unexceptionable resort.

J. W. DE WOLFE,

PROPRIETOR.

JAMES H. WHITE, PROPRIETOR.

This "Resort" is situated on Battle Mountain, 12 miles north-west from Santa Cruz, near Williams' Landing. The views from the adjacent hills are beautiful beyond description; Eagle Glen, surrounded by lofty pinnacles, presents to the imagination the ruin and grandeur of ancient cities, while from the Devil's Pulpit can be distinctly seen the grand old Pacific, the bay of Monterey, and the lofty snow peaks beyond.

THE CLIMATE IS EXCEEDINGLY HEALTHY

And especially agreeable to those afflicted with pulmonary complaints. The altitude is 2,000 feet above the sea level, and this, taken in connection with the purity of the "Springs," enhances the value of the place as a Sanitarium.

DEER AND SMALL GAME

Are very plentiful, while mountain streams on either side afford abundant sport for the angler. Several large shady groves, admirably adapted for pleasure and picnic parties, are on the ranch.

AMPLE STABLE ROOM

And an abundance of hay and grain for horses, constantly on hand. Parties desiring to visit this place will be furnished with a suitable conveyance at less rates than elsewhere, by notifying the proprietor one week in advance.

Address, JAMES H. WHITE,

Santa Cruz, Santa Cruz County, . . . California.

INTER'S IMPROVED GRA

THE BEST

IN THE

FARMERS

SOW ONLY

The unparalleled success which I have met in running this Machine in the Pajaro Valley, and in the vicinity of Hollister, for the past three years, has induced me to extend my operations to the Salinas Valley. I have now the Sole Right of the above Machine for Santa Cruz and Monterey Counties.

TESTIMONIALS.

WATSONVILLE, August 1st, 1874. Mr. Harris has run his Seed-Cleaning Machine in the Pajaro Warehouse, at the Pajaro Depot, Monterey County, California, at different times. Two men will clean from six to eight tons per day, and it has never failed to my knowledge in giving entire satisfaction. It is the best Seed Cleaner I ever saw. JEROME PORTER, Superintendent Pajaro Grain Warehouse.

We concur in the above—M. A. Hudson, Hudson's Warehouse; A. G. Post, Pajaro Landing.

Mr. Harris has cleaned seed wheat for us at different times, and in all cases has given entire satisfaction, his Machine doing all he recommends, either for seed or market wheat, and we think it has improved the quality of wheat in this valley.

FORD & SANBORN,

JOHN S. PAYNE,

HY. JACKSON.

GEORGE PARDEE, A. LEWIS & CO.

WATSONVILLE, August 3d, 1874. This is to certify that I have examined the Grain-Cleaner belonging to Mr. A. Harris, and pronounce it one of the best machines for cleaning grain now in use; have also seen it in operation, and feel no hesitancy in saying that it will perform all he claims for it. During the past three seasons he has been cleaning seed-wheat for farmers, and for the improved quality of our grain we are mainly indebted to his Cleaner.

CHAS. L. THOMAS, Proprietor of Watsonville Flour Mills.

Mr. Harris has cleaned my wheat for the past three years. In separating the shrunken and cracked wheat from the good, and using only the best for seed, I find a large increase in the QUAN-TITY, and a still greater improvement in the QUALITY of my crops. E. FERGUSON

This Machine has never failed to take the FIRST PREMIUM OVER ALL COMPETITORS at every County and State Fair where it has been exhibited, at the East or on this Coast, for which we have the diplomas and medals to show. The work that a machine does is the best proof of its merits. All I ask is, give it a trial. Satisfaction guaranteed or no pay.

Address,

ANSON HARRIS.

WATSONVILLE.

SAN FRANCISCO

Employment Office,

CROSETT & CO., PROPRIETORS.

(Successors to WM. VALE & CO.)

Having purchased the San Francisco Employment Office, formerly owned and conducted by us, we hope to merit and regain the Patronage here-tofore extended to us. Our thorough knowledge of the business, and wants of our customers and the public, enables us to fill all orders with the best of help, and with promptness and dispatch.

Especial pains taken to obtain suitable help, male or female, to fill orders, for either city or country.

Farmers promptly supplied with First-Class Hands

CROSETT & Co.,

606 CLAY STREET.

STAGI

SANTA CLARA

SANTA CRUZ.

Via Saratoga, Congress Springs, Ocean View, San Francisco Saw Mills, San Lorenzo Flume and Transporta-tion Co's Mills, Boulder Creek and Felton.

This delightful Route, for a distance of TWENTY-FIVE Miles, passes through beautiful Mountain Scenery, and magnificent Redwood Forests, which shade the Road, making it one of the pleasantest Drives in the State. For FOURTEEN Miles, the Road follows the San Lorenzo V Flume, and passes one Paper Mill, ten Saw Mills, one Fuse Factory, three Lime Kilns and the California Powder Co's Works. It also passes Boulder, Bear, Newell, Love, Fall and Sayante Creeks, whose waters are well stocked with Mountain Trout, the forests abounding in game of all kinds.

From "Ocean View" can be distinctly seen the whole of Santa Clara Valley, Pescadero, Page's Mills, San Francisco Bay, the Pacific Ocean, Santa Cruz, and, in a clear day, the far distant city of San Francisco.

The Stage leaves the CAMERON HOUSE, Santa Clara, on Mondays, Wednesdays and Fridays, at 7 A. M. RETURNING

Leaves Santa Cruz, from St. Charles Hotel, on Tuesdays, Thursdays and Saturdays, at 7 A. M. Fare, \$2 50. Connections made with the Alviso Boat.

For Tourists. The apartments are comfortably furnished, and the table abundantly supplied. The mountains are full of game, and excellent fishing is found on every creek.

A LARGE NEW STABLE

Has recently been built, where horses will receive careful attention.

CREDIFORD, PROPRIETOR.

A GENERAL DESCRIPTION

OF

MONTEREY COUNTY

MONTEREY is bounded on the South by the Pacific Ocean, and San Luis Obispo County; on the East by the counties of San Benito and Fresno; on the North by San Benito and Santa Cruz; and on the West by Monterey Bay and the Pacific Ocean. Its length is nearly 120 miles by an average width of 42 miles.

It possesses nearly a million acres of rich agricultural land, almost unparalelled for productiveness. Until recently the greater portion of the County has been devoted to the raising of cattle and sheep; and much of the best land is still held by the original grantees, their assigns, or immediate descendents.

There is a large Mexican and native Californian population in the country. Within the past few years many of the large ranchos have been purchased by Americans, and by them subdivided into farms. As these changes occur, the fertile portions of the County will be utilized to the fullest extent rendered possible by careful cultivation, and the greatest imaginable benefit will accrue to the community at large. The Santa Lucia Mountains extend from Carmel Bay, in an unbroken line, South-east, bordering the Coast as far as San Luis Obispo, then tending toward the East, are merged into the main Monte Diablo Range. They are a rugged and unexplored mass, over 5,000 feet in elevation at the highest point. The Western portion of the range is particularly abrupt, and inaccessible. The average breadth of the Santa Lucia Range is 18 miles. The magnificent valley of the Salinas River is enclosed between the Santa Lucia and Gavilan Ranges. It extends Southward from Monterey Bay, nearly one hundred miles. The Gavilan Range separates the County of Monterey from that of San Benito; the latter having been taken from the former in March, 1874.

The Salinas River, after flowing through San Luis Obispo County, enters Monterey a few miles south of the old mission of San Miguel, nearly in the centre of the southern border of the County. This river is the only one in the whole Coast Range, connecting with the ocean, which is navigable.

The wharves at the mouth of the river are substantially built, and are kept in good repair. The dimensions of the river increase so much during the winter season as to render the building of expensive wharves a matter attended with considerable risk. Its usual width at the entrance to the bay is about four hundred and fifty feet. In the wet season, it has been known to exceed a mile.

The Carmel is an inconsiderable stream, which drains the hilly country North and East of the northern termination of the Santa Lucia Mountains. Its outlet is Carmel Bay. These are the only rivers of importance in the County.

Besides the valley already mentioned, viz: the Salinas, are the Pajaro, the Carmel, and the San Antonio, the two latter, both sites of old missions, are famous for their fruits. Figs, grapes, olives and peaches can be cultivated here, as well as cereals.

The Salinas Valley contains in the vicinity of 1,000 square miles. It is used mostly for agricultural purposes, being nearly all under cultivation. Some years since, this County contained more sheep than any other in the State. They are not as numerous at present, but more valuable, the breeds having been greatly improved.

There is, probably, no county in the State as well adapted to this industry as Monterey. The increase is from 90 to 110 per centum, and no disease has ever afflicted the herds. The hills in the Coast Range, too, afford pasturage in seasons when the lowlands are suffering from drouth.

Pajaro Valley extends from the shore of Monterey Bay to the foot of the Gavilan Mountains, a distance of about ten miles, ranging from six to eight miles in width.

This land is exceedingly fertile and almost level; on either side of it for several miles is a

di

未

range of low, smoothly-rounded hills, well watered by numerous creeks, and but little less fertile than the bottom land. This chain of hills produces fine crops of wild oats, bunch grass, and a variety of clover and native grasses, where not under cultivation.

Fruit, grain and vegetables of all kinds and descriptions thrive well in this soil, the black soil of the valley having become especially famous for the wheat and potatoes it produces.

The dews and fogs are almost as serviceable as rain to the crops of this valley.

Nearly the whole of this section is settled by American and European farmers, and is in a high state of cultivation. Well tilled farms lie here and there throughout the valley; villages, school-houses, churches and picturesque residences, dot the landscape whichever way one turns; the foot hills are covered with snowy flocks and herds; the lower ranges are thickly timbered with live oak, and madroña; and still higher against the dark azure of the sky, are outlined the gaunt, bleak, brown peaks of the mountain range. The scene is a delightful one, embracing within the radius of its limits, peace, thrift, happiness and prosperity.

Previous to the year 1850 this valley was without a single inhabitant.

Land is now becoming too valuable for grazing purposes, and is fast being devoted to the raising of cereals, railroad communication rendering transportation feasible, convenient, and cheap.

Monterey exports a large quantity of butter, cheese, grain, and vegetables.

Quite an important source of revenue to the County, are the whale and other fisheries in the bay and along the coast. Large quantities of white sand are shipped to San Francisco for use in glass manufauture, and for the purpose of sanding buildings

As the indicators of mineral wealth, Monterey contains veins of gold and silver-bearing quartz, of copper, lead and quicksilver ores, of asphaltum and marble; also numerous minerals of a commercial value, which will undoubtedly pay adequately for development. Coal prospects are good, and two mines are being worked with flattering results.

In the Pajaro Valley wheat averages from 25 to 30 sacks,

Barley about 30 sacks,

Hay from 4 to 5 tons per acre.

This season 32 tons of hay was cut from 4 acres, being an average of 8 tons per acre.

A gentleman of the County stated that one season 26 acres of wheat produced an average of 40 sacks; thirty acres in barley averaged 79½ sacks; sixteen acres of beans averaged 2 tons; one acre produced 400 sacks potatoes; and one acre 1,600 pounds flax.

Water in the valleys is generally good, but wood cannot be had short of the hills.

Land generally is worth about \$125 per acre; this, of course, means nothing but good agricultural land.

Land rents at from \$8 to \$20.

Wheat is a trifle darker than that raised further from the Coast, but is solid, heavy, and brings a good price.

The climate is subject to those rapid changes, enjoyed alone by the Coast counties, and to persons afflicted with lung diseases, or pulmonary complaints, the church-yard proves an irresistible attraction.

Salinas City, the county-seat, and largest town in the County, is on the line of the S. P. R. R., near the northwestern boundary of the county, in a fertile valley bearing the same name. Six years ago there was but one building on the site of the present town. The valley was overrun with wild mustard, growing to such a height as to effectually conceal a man on horseback. There is a narrow-guage Railroad-running from this place to Monterey, which is said to be doing a fine business.

The population numbers about 2,000.

In appearance, Salinas is a very pretty town. The streets are regularly laid out, and cleanliness is maintained, regardless of the expenditure necessary. Regarding its business enterprise, we cannot be too commendatory; it is a thriving community, a "live" progressive, young American city, capable of achieving for itself a brilliant future.

For both classes of humanity, the honest and dishonest, it makes ample provisions. The one can be feted and feasted every day in the year, at a hotel which need blush at comparison with none in the country; while for the comfort of the other a handsome and substantial building has been erected, viz: the county jail.

The hotel above referred to, the Abbott House, we would warmly recommend to all travelers. The entire establishment is conducted upon courteous and generous principles; nothing is left unprovided, and no wish is unattended to.

The proprietor, Mr. E. J. Swift, is a gentleman who strives for and consequently merits success; he has our warmest wishes.

MONTEREY.

At a distance of 18 miles S. W. of Salinas, is Monterey, the first Capital of the State. The town was founded in June, 1770. We cannot say much in favor of its business interests; it has but few. It is entitled to mention in connection with the early history of the State, in which it played an important part. As a quiet, pretty, romantic spot, it is noticeable. But there is that delightful Sleepy Hollow air, that monotonous monotony about it, which makes it so enjoyable a place to move away from. However, improvement seems to be setting in that direction. A large and good Depot has recently been erected for use of the narrow-guage road connecting with Salinas City.

As offering a decided contrast to the majority of the business men of the town, we may mention Lambert Bros. and the gentlemanly proprietors of the new Hotel. These gentlemen employ energy in the conduct of their business, and as a consequence enjoy continued prosperity.

The Bay of Monterey was first called the Port of Pines. It was discovered in 1602, by General Sebastian Viscayno, who, under orders from Phillip III. of Spain, made an exploration of the coast of Upper California. On the 10th of November he discovered the harbors of San Diego. After remaining here a short time, he resumed his northward course, and on the 16th of December discovered the Bay of Monterey, which he named in honor of Gaspar de Zunniga, Count de Monte Rey, at that time Viceroy of Mexico. Viscayno was much impressed with the beauty of the surroundings, and remained in the bay eighteen days.

Monterey Bay, ninety-two miles South of San Francisco, is about thirty miles wide, and circular in form. Point Pinos forms its southern, and Point New Year its northern headland. Near the latter headland is the harbor of Santa Cruz, while Carmel Bay is in close proximity to Point Pinos.

Quite an extensive coasting trade is carried on from the numerous points around the bay, notwithstanding the bay offers but imperfect shelter, it being somewhat exposed to winds during the winter months.

Monterey has a good wharf, projecting into deep water. Formerly passengers and freight were landed by small boats upon the rocks along the shore.

Either side of Point Pinos affords the safest harborage to vessels, the lee side, just before the town of Monterey, or the weather side, where reposes the delightful little Bay of Carmel. Unfortunately, neither of these places are convenient for shipping purposes.

Near the latter named bay was located the mission of San Carlos de Monterey, established June 3d, 1770.

This was the second mission founded upon the Coast, the one of San Diego antedating it by

not quite a year.

The buildings of the San Carlos Mission are in total ruin. Even the wall of the enclosure is a conglomerate mass of ruin and decay.

Decay has not, however, progressed so far as to obliterate all traces of the massiveness of the structures. They have an appearance of substantiality of which even their prostration cannot wholly rob them.

From this Bay also was procured the granite used in San Francisco for building purposes, prior to the discovery of the quarries at Folsom.

A pleasant excursion for a day in summer is a trip across the Bay of Monterey. The water is transparent as crystal; pebbles and mosses lying at the bottom, can be distinctly seen through twenty feet of this limpid element. In the vicinity of the old town of Monterey the coast is bold and rocky, the situation and appearance of the town picturesque, while the surroundings harmonize, blending the whole into a grand panorama, ravishingly beautiful.

Whalemen have made their headquarters in this Bay for some years past, and quite a large quantity of oil reaches San Francisco, annually, the product of their intrepid labor.

Should the much-talked-of breakwater be constructed at Santa Cruz, Monterey Bay will become a very important port, of great advantage to the commerce of the coast.

Coming into Monterey by the S. P. R. R., which passes through the North-western portion of the County, we have an opportunity of gazing upon a valley widely known, and nowhere excelled for the richness of its soil, or the character and diversity of its products. This valley is divided by the Pajaro River, which, being the boundary between Monterey and Santa Cruz Counties, not only changes the topography, but the proprietorship of the territory.

VEGA

Is the first station on the road, and is a mere station; it is situated on the land of a Mr. Clough.

PAJARO,

The second station, is one-half mile South-east of Watsonville, Santa Cruz County, and about twenty miles North-west of Salinas.

Here are two warehouses, a hotel, and a number of private residences.

In going South-east from Pajaro, the railroad passes the landing at Elk Horn Slough, where is a large warehouse and landing, the property of Messrs. Goodall, Nelson & Co., of San Francisco.

Large amounts of grain are shipped from here, and on the hillside near are many pretty residences. The warehouse is on Elk Horn Slough, about three miles from its mouth. In the vicinity are a great many settlers, mostly engaged in dairying. At the mouth of the slough is another landing owned by the same firm. Near here, also, is the Watsonville ferry.

The railroad, crossing the slough at the upper landing, passes down the East side for several miles; when making an abrupt turn, it plunges over some rolling hills, into

CASTROVILLE,

Nine miles Northwest from Salinas City. The town was established in 1854. It consists of two hotels, one restaurant, ten saloons, several general stores, a drug store, a brewery, one tin and hardware store, a saddle and harness shop, a blacksmith and wagon shop, a grist mill, two livery stables, a feed yard, and many other business places. A printing office is also located here, the office from which is issued the Castroville Argus, a weekly paper, which is meeting, we believe, with deserved success.

A graded school is in session here, having an average daily attendance of one hundred and twenty-five pupils.

Two miles West is

MOSS LANDING,

one of the largest grain-shipping ports of the County. This landing is at the mouth of the Salinas River. From this place the railroad runs up the Salinas Vailey in a Southeasterly direction to Salinas City.

CHULAR CITY

Is Southeast of Salinas, 15 miles. The first house was erected only a trifle over a year since. It now has a population of fifty-one persons, 32 males and 19 females. A good hotel, known as the Pioneer House, renders the stay of travelers as pleasant and agreeable, as a careful attention to their bodily comforts can.

This is quite a business place, there being merchandise stores, restaurants, shoeshops, etc., and a blacksmith shop. To the good quality of the material used and good workmanship of the proprietors of the latter, we can bear witness.

The town has also a good school house, with a regular and full attendance.

A substantial freight depot, with a capacity of 25,000 sacks, ministers to a want of the producer, giving him ample store room.

The city is increasing very fast, and new buildings are going up rapidly. Everything argues well for the ultimate success of this little hamlet. Its situation is attractive and advantageous, its contiguous lands fertile and well tilled, and its people industrious, enterprising and correspondingly prosperous.

Six miles further up the valley we come upon

GONZALES,

A small but enterprising town, rapidly increasing in size and importance.

It has a good hotel, also a restaurant, a general merchandise store and blacksmithing establishment, together with those undoubted evidences of advanced civilization, the saloon and school-house; however, here as elsewhere in California, the saloons predominate.

The town is also the site of a large warehouse.

In this vicinity the land is owned in large, undivided tracts, the one circumstance which militates against the present advancement of the town. We understand that it is the intention of the possessors to put it upon the market in subdivisions of small farms at an early day.

The population of Gonzales aggregates sixty-one—thirty-one males and thirty females. By these figures it will be seen that one person in this town, of that sex generally spoken of by the ladies as "those awful men," is actually, not figuratively, out in the cold. We shall not disclose his name, but merely insert, at his request and expense, a small advertisement, which, in consideration of his present state of nervous and physical prostration, superinduced by this cause, we wish may be productive of happy results.

WANTED.

A lady of fine appearance, having lingered not to exceed ten years within the purificus of five-and-thirty, as a consort and help-meet for the last celibate of Gonzales.—N. B. Communications strictly confidential. Apply personally, or by letter.

The eight miles lying between Gonzales and Soledad are very thinly settled, there being scarcely a house visible along the entire route.

SOLEDAD

Is a small but thriving town, on the line of the S. P. R. R., and at the same time its terminus. It contains a store, two hotels, a feed yard, express and post-office. There are many signs of improvement evident about the town. Real estate is increasing in value, and a school-house and town hall are strongly talked of. The ruins of the old mission, from which the town derives its name, are just south of the town.

Six miles to the South are the Pariso Springs, while six miles SE. is the largest ranch in the County, the Arroyo Seco. This comprises 31,900 acres; a great portion of it being only held by rental.

Soledad has a population numbering fifty-four persons, 32 males—22 females. Worse and worse! ten of the unredeemed and unprovided for in this wilderness. Massachusetts should by all means populate this country, by turning hither the tide of her adventurous females.

Soledad is twenty-eight miles S. E. from Salinas, and one hundred and forty-three miles from San Francisco. The hotel at this place is a very good one, and the proprietor evinces a kindly disposition towards all who cross his door-stone.

The conveyances of the Coast Line Stage Company, carry passengers from here up the Salinas River, the route being by Thomas' Station, changing horses at a station called

LAST CHANCE,

fifteen miles distant. This seemed appropriately named, as it must have been the last possible chance, which led to its establishment. It is a mere way station for the accommodation of the stage line, consisting of a stable, granary, and a very primitive cabin.

At the distance of three miles beyond is the Gulch House, owned and kept by Mr. Thompson. Four miles further on is the Store and Hotel of Mr. A. E. Walker, and here, too, is the omnipresent Blacksmith Shop, with a red glow from the forge streaming through the open door, resembling the blood-shot orb of a Polyphemus.

Still on for four miles, and

SAN ANTONIO.

or Lowes Station is reached, and the rattle and rumble of wheels for one day at least is over.

This is the supper and sleeping station, and travelers are well and amply provided for.

The stage from San Louis Obispo also puts up here.

San Antonio station is 60 miles S. E. of Salinas. The country lying between it and Soledad

is level, and the growth of timber is very light; one spur of a mountain range is crossed which exposes much heavy timber. All this section of country is used almost exclusively for stock-raising.

Ten miles S. E. of San Antonio station is the town of

JOLON.

This village, which does not impart any new dignity to the name of town, through its being thus characterized, has a store and hotel, a saloon, stable and smithy. The most noticeable building of the collection belongs to a day long since passed, it being an "adobe," and a wonderfully old settler at that. The hotel and store are twin institutions under this one roof.

PLEITO STATION

Is a small collection of buildings, which, by a stretch of courtesy, might be called a town. It has its site upon an old Spanish grant, called the Pleito Grant.

The present ranch of the same name comprises three leagues.

It is nearly 90 miles South-east from Salinas City.

The hotel at this place is a very comfortable, home-like place, whose wholesome and substantial fare is refreshing and sustaining.

The store is at present closed, but will be re-stocked and opened in the Spring by the enterprising hotel proprietors.

The Stage Company has a large and complete stable here.

This is the last town or village in the southern extremity of the County.

A party of forty-three persons recently reached here from Kentucky; many of them immediately purchased land, and all expect to settle in this vicinity.

Six miles West of Pleito is Harris Valley, a very fine tract of land, used for grazing purposes mostly, yet some very fine grain is produced. In the summer season it is quite hot, but there is perfect immunity from wind and fog.

Three miles to the West this opens into Sapaque Valley, containing about 1,000 acres, used in part for the production of grain, and in part for grazing. There are but three families living in this valley.

Ten miles North-west of Jolon there is much prospecting for quicksilver, and some little prospecting and actual mining for gold. This, however, is on the most primitive scale, and by the oldest-known method in California, the ancient rocker being used.

But by far the largest mining developments are progressing some six miles NE. from Soledad, and thirty-six miles East from Salinas City, near the little town of

ROOTVILLE.

This town is yet an infant, having come into being only very recently. Its future is rather problematical, it being subjected to the vicissitudes concomitant upon a location in a mining district.

Rootville has a population of thirty-two—nineteen males and thirteen females. The town is thought to be in quite a prosperous condition, and it is confidently expected that good paying mines will be developed in the vicinity. In this event, the growth of the town, the rapid increase of property, and its permanent prosperity are assured.

Mr. Saml. Brannan and a Mr. H. Higgins, are said to have spent a large amount of money here mining for gold. The precious metal was found, but not in paying quantities; silver is the metal which is now most sought.

Some of the tunnels run into the hills for a distance of three hundred feet. Three companies are at work at the present time. The Robert Emmett has a well defined ledge, which can be traced for miles though they have proceeded with their shaft only fifty feet. This mine was discovered during the year just passed by a Mr. Root.

The "Comet" is thought to have a still better ledge, but not sufficient work has yet been done at either mine to fully demonstrate the fact.

The "Bambridge" is a claim upon which work has scarcely more than commenced.

Five miles North of Rootville, we came upon a sight, a trifle different in character from any

we have before been gratified with. We entered a valley probably half a mile in length and exceedingly narrow. Towering upon either hand, for a height of two thousand feet, were perpendicular walls of rock. At the extremity opposite our place of entrance was an enormous egg-shaped boulder, just filling the interstice between the two walls and fitting so snugly as to effectually bar all entrance or exit. Beneath the stone is a space just sufficient to admit the passage of a mountain stream. A short distance below this is a small valley completely rock-bound, if we except a passageway six feet in width at either extremity. It is a matter of absolute impossibility to effect either entrance or exit from this valley in any other way than by one of these passes. This is said to have been a favorite strong-hold of Joaquin Murieta. Vasquez is also said to have sought its retirement, when closely pursued, and to have enjoyed many days of quiet in its secure retreat.

About 18 miles N. W. of Jolon, on the San Antonio River, is a cave and rock well worth the trouble and fatigue encountered in paying the visit. The cave, just beneath a huge rock, is about 30 feet wide, one hundred feet long, and sufficiently lofty to allow a mounted man to pass through the entrance, without bending from a perfectly erect position.

The floor, composed of solid rock, is completely punctured with holes formerly used by the Indians as mortars for pulverizing their acorns, etc. The cave has formed a place of rendezvous in times of quiet and of retreat in moments of danger, and has been inhabited exclusively by such daring outlaws as Joaquin Murieta and Tiburcio Vasquez. The natural advantages offered by this, as a robbers' cave, are manifold, and apparent at first glance, though we by no means wish to appear an authority in such matters.

A bridle-path, conducting by a bridge over a chasm formed by the interstice between two boulders, leads to the top of the rock; any party approaching this must "enfilade," as the bridge will admit of the passage of only one at a time.

But, having reached the summit of this rock, what a sight confronts one. Terra firma lies an hundred feet below, and here, all around us, at such an elevation, like the hanging gardens of Babylon, teem twenty acres of forest vegetation. Here are great, towering pines and oaks, and the dusky manzanita; while over all the vacant space the rustling grass quivers at a height of four feet.

Running along parallel to one side of the rock is a ditch, possibly one hundred and fifty yards in length, very nearly straight, having a width of three feet at the bottom, of from five to eight at the top, with a depth varying from five to ten feet. It undoubtedly is a specimen of man's handiwork, but how many years or ages since the hand which performed it lost its cunning, none may tell. This rock, in times past, was used by Joaquin's band as a corral for their horses, it being well adapted to that use, having only one approach, and that being easily guarded from its very narrowness. To this day the place is called, in memory of its bandit occupants, "the pasturage." This place can also be visited from Soledad, the route being through Reliz Canyon, to the settlement at the head of Mission Creek. Here a guide can be procured, or the road easily learned upon inquiry.

Three miles North-west of Salinas is the town of

SANTA RITA,

With a population of 85-48 males and 37 females. Here are two stores, two blacksmith shops, one hotel, two saloons, ann a school with an attendance of 75 pupils. There is also a church, a pretty little structure, which can be seen for many miles on all sides. The town is built in a little depression, just sufficient to shelter it from the winds of Salinas Valley.

Six miles North from Salinas is the town of

NATIVIDAD.

This is one of the oldest towns in the County, and in early days was a station for the Coast Line Stages. Since the discontinuance of the line, it has fallen somewhat into the "sere and yellow leaf." Its business interests have gone to the dogs, and with the exception of a capital Hotel, it does not offer many inducements, nor does it exert itself to supply attractions for the stranger.

Adjoining the town is a good mile race-track.

BLANCO

Is a small town six miles from Salinas, near the Salinas River. The land in the vicinity is said to be of the best in the entire valley.

The town comprises a store, blacksmith shop, postoffice, and several very good residences.

A hotel is very much needed in the town, if not to accommodate travelers who flock there, to give them assurances, in case they do visit the town, that they will not be obliged to lie under some one's portico, but can find proper entertainment.

Two miles South of Salinas is the enterprising village of

SPRINGTOWN.

A general store and saloon, and a large blacksmith and wagon-making establishment constitute the business element of the place. The blacksmith shop is well fitted for doing good work, and the proprietor is skillful, prompt and energetic.

A considerable amount of fruit, of very superior excellence, is raised here.

A hotel is talked of, and, no doubt, it would prove a judicious and renumerative investment.

A post-office is to be petitioned for during the coming Summer.

Much travel would visit this place, were it only provided with a good hotel and stable.

Some 60 miles South-east from Salinas are two very fertile valleys, separated only by six miles of a mountain ridge. These are Peach Tree Valley and Long Valley.

A small part of Peach Tree Valley is susceptible of cultivation, but by far the largest portion, 1,000 acres, is grazing land.

Long Valley is nine miles in extent, is altogether agricultural, in both the nature of the soil and the purposes to which it is devoted. It is a beautiful valley, backed by steep hills.

The inhabitants are "Mormons" in religion, are hospitable, energetic in the prosecution of their industries, and seem, as far as their characteristics or those of their religion are concerned, excellent people.

The recent past of this County has been characterized by such energetic struggles for advancement as to leave no doubt but that her future progress will be rapid and assured. In no portion of the State have such wonders been accomplished, with such rapidity and such thoroughness. The strife has been a hard one. The territory has been, until recently, almost inaccessible in its position. The land, originally covered with Spanish grants, has held out no inducements to small farmers—men whose limited means would only permit the purchase of a few acres. Here, too, the Mexican and his descendants have clung to their landed estates with a tenacity unparalleled in the annals of the State, and it is only very recently that their grasp has begun to relax, and that these vast ranchos are being thrown upon the market in small tracts. They are induced to sell from two causes; they can hope for nothing from a progress which moves at a pace so swift as to amaze and stupefy them; and again, the greatly enhanced value of their land tells them the opportunity is good, and the "coin of the realm" possesses for them a fascination they are powerless to resist.

Within an incredibly short space of time the County has been transformed from a vast pasturage into almost unbroken grain fields. In productive capacity, the soil is found equal to that of the vaunted agricultural sections of the State. Towns have sprung into being with almost magical celerity, and have been populated as though by the command of a "merlin." The mineral wealth is also being developed, and promises to become an important source of revenue.

With these interests properly subserved by an energetic people, what is to prevent Monterey, with her rich agricultural resources, her flock-flecked summits, her large mineral production, and her not inconsiderable commerce, from ranking among the first counties in California in wealth, importance and prosperity?

24 POST STREET, SAN FRANCISCO.

E. P. HEALD.

F. C. WOODBURY.

President.

Secretary.

The design of this Institution is to impart to persons of both sexes a practical and useful Business Education. Young men are thoroughly fitted for Bankers, Merchants, Book-Keepers, Cashiers, Clerks and Salesmen by our great system of ACTUAL BUSINESS TRAINING. By this system, the pupil receives while in the school the same practice in conducting business affairs that he would in a bona fide Bank, Office, or Counting-House.

BRANCHES TAUGHT:

Single and Double Entry Book-Keeping,
Plain and Ornamental Penmanship,
Commercial Arithmetic,
Business Correspondence,
Mercantile Law,
Political Economy,
Actual Business,
Merchandising,
Insurance,
Bunking,

Mechanical Drawing,
Modern Languages,
Higher Mathematics,
Phonography,
Railroading,
Surveying,
Brokerage,
Exchange,
Jobbing,
Mining,

Custom House Business,
Real Estate,
Telegraphy,
Commission,
Importing,
Forwarding,
Grammar,
Rhetoric,
Reading,
Spelling

The SCHOOL-ROOM and COUNTING-ROOM

Are united upon a plan that secures to the student all the practical advantages of each. There is in operation a Banking House, with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fully illustrating the banking business.

The school-room is elegantly fitted up with

MERCHANDISING, JOBBING and IMPORTING EMPORIUMS,

GENERAL and NATIONAL BANKING OFFICES.

COMMISSION, FORWARDING and REAL ESTATE.

INSURANCE, EXPRESS and POST OFFICES.

For full particulars regarding the College, Course of Studies, Expenses, etc.,

Call at the

COLLEGE OFFICE, No. 24 POST STREET,

Or address for Circulars,

E. P. HEALD, President Business College,

SAN FRANCISCO, CAL.

The Leading Institution of Business Training on the Pacific Coast.

This is the only school in San Francisco that makes a Business Education its distinct and separate specialty. Its teachers are competent and experienced. Its pupils are from the best class of young men in the State. It is under the very best discipline. Its Scholarships are good in the THIRTY-SIX Bryant & Stratton Colleges. It employs four of the best penmen in the State. It has the largest rooms, the largest attendance, and the most complete system of business training, of any commercial school on the Pacific.

YOUNG MEN AND LADIES

Wishing to prepare themselves for the practical duties of life, will find this the best school. Pupils learn just what they need to accomplish success, and do not meddle with superfluous studies. Each student receives separate instruction, and can thus advance as rapidly as desired, not being kept back by those more deficient. All persons passing the final examination in a satisfactory manner, will receive our finely-engraved Graduatring Diploma. Graduates of this College are in demand among Business Men, and can readily find good positions. Such as are in good standing are assisted in obtaining situations, if desired.

OUR BUSINESS COURSE.

Is especially adapted to the wants of young and middle-aged men, who wish to prepare for the active duties of life, whether as book-keepers, salesmen, merchants, bankers, professional men, or even farmers or mechanics.

THEORY AND PRACTICE

Are combined in such a manner as to make each a powerful help to the other.

The Student Buys, Sells, Ships, Barters, Consigns, Discounts, Insures, Draws Checks, Notes, and Drafts, Gives Leases, Deeds, etc., and goes through the entire routine of actual business. He becomes acquainted with changing books from Single to Double Entry, and vice versa, and also with Joint-Stock and Partnership Books, and every form and style of Book-Keeping practised in well regulated Business houses. Jobbing, Importing, Commission, and Banking are carried on with the students of the other Colleges in the Association—thus fully illustrating the methods of carrying on business and keeping books when there are different currencies. The pupil becomes familiar with all the calculations and entries connected with Legal Tender and Gold transactions. transactions.

SESSIONS CONTINUE DAY AND EVENING.

Clerks, mechanics, and others engaged during business hours, can secure a sound Mercantile Education by attending evenings only. There are no class systems to keep the pupil back; each can advance as rapidly as desired. No particular age or degree of advancement is required to enter the College. We have in operation an

ACADEMIC DEPARTMENT.

Where all the branches of an ordinary English Education are taught, for those who are too young or not sufficiently advanced for the Business Course. Visitors are always welcome at the College,

FURTHER INFORMATION.

Young men and young ladies should obtain full particulars regarding this useful Institute of Practical Education. Now is the time to get an education. Use the present, and you can trust in the future. Competent persons are wanted in all departments of industry. In order to learn all about this school, send for

HEALD'S COLLEGE JOURNAL,

Which is issued monthly, by the College, and contains full particulars regarding the Course of Studies, Expenses, etc.; also, a large amount of interesting reading. It can be obtained, free of charge, either at the College Office, 24 Post Street, or by addressing

The Washerwoman's Friend! THE IMPROVED HUMBOLDT WASHING MACHINE,

The Cheapest and Best Machine now in

It works light and works well.

It always gives entire satisfaction.

It washes from the lightest fabric to the heaviest bed quilt.

It does its work thoroughly, & without injury to the clothes.

OTESTIMONIALS.

Mr. Pursell:

I have used the Parson and Humboldt Washing Machines, both of which I was well pleased with. I nover expect to get a washer that will fill the bill as well as the Improved Humboldt. It works lightly, does its work well; saves more than half the labor; is durable, and cheaper than any I have ever seen.

MRS. JAMES DAVIS.

G. M. Pursell, Esq:

Salinas Citt.

I have used several washers, but never have seen one that was so much help as the Improved Humboldt.

MRS. JOLEY.

Mr. Pursell,—Dear Sir:

Your Improved Humboldt Washer gave better satisfaction than I expected. So I intend to take it.

Your friend, DAVID YOUNG.

Mr. G. M. Pursell:

I have used several washing machines, and I find the Improved Humboldt to be the best I ever saw. It works so light and does its work so well, I would not take one hundred dollars and do without it.

MRS. PIDGE.

Mr. Pursell:

We have used the Humboldt Washer, (bought of you), during the last sixteen months. We like it see well that we would not part with it for any money, if we could not replace it. We can do our washing with one-half the labor using the machine. We class it in the same catalogue with our sowing machine.

Yours truly, W. H. WILSON.

These are my sentiments. MRS. J. A. BLACKBURN.

I can furnish hundreds of testimonials similar to the above, but will only add a few names as references:

Mrs. Halstead, Watsonville; Mrs. B. Porter, Soquel; Mrs. C. E. Cleveland, Watsonville; Mrs. Williams, Soquel; Mrs. Rev. Pierce, Watsonville; Mrs. Dr. Lee, Hollister; Mrs. Jerome Porter, Watsonville; Mrs. Wm. Read, Hollister; Mrs. Sheahey, Watsonville; Mrs. John Read, Hollister; Mrs. Allison, Watsonville; Mrs. Higgins, Hollister; J. C. Syme, Central Hotel, Watsonville.

Over four thousand "Humboldt Washing Machines" have been sold in this State since 1872, and I have yet the first one to hear from that has not given entire satisfaction. The Improved Humboldt is vastly superior, and stands higher than the original Humboldt in the estimation of all who have used both.

Price, \$12; With Washboard attached, \$15. Satisfaction in all cases guaranteed or Money refunded.

G. M. PURSELL.

Watsonville, Santa Cruz County, Cal.

BURNETT'S Photographic Gallery,

Main Street, Watsonville, Santa Cruz Co., Cal.

Is the largest, best and most complete establishment of the kind South of San Jose. Parties living at a distance will always find our Gallery open, where they can come and spend an hour or two and examine our specimen pictures. I have recently received a new and complete set of instruments, etc., pertaining to the business, and am prepared to make all kinds of pictures, from the Smallest Gem to the life-size Photograph. I also keep for sale the largest assortment of Albums in the County; as well as Picture Frames, Mouldings, Cord, Tassels, Etc.

Leave your Pictures and Wreaths at the Gallery to be framed. Copying, Enlarging and Retouching a specialty.

Beautiful Photographs of Residences and Scenery, taken at short notice.

Pictures are equally as good taken on cloudy days, so do not wait for a clear day.

BURNETT, Proprietor.

GOODWIN & MARTIN'S

LIVERY STABLE.

FRONT STREET.

SANTA CRUZ,

Opposite the Plaza,

Keep on hand at all times first-class stock, Single and Double Teams, Open and Top, Single and Double Buggies, Carriages and Wagons of all descriptions; also a fine stock of well trained Saddle Horses, for ladies' use.

Excursion or Picnic parties fitted out at short notice and at small expense. Parties conveyed to any point without loss of time.

Boarding Horses attended with extreme care. All who patronize us may be assured of polite attention and entire satisfaction.

GOODWIN & MARTIN.

MAN'N'S HOTEL,

SOQUEL, SANTA CRUZ COUNTY, CALIFORNIA,

Thomas W. Mann, Proprietor.

This Hotel provides the best of Accommodations for Travelers and Tourists. All the APARTMENTS are comfortably and elegantly furnished, while the TABLE is provided with the best the market affords, and is also well served. The BAR is well stocked with all the choicest brands of Wines, Liquors and Cigars.

Soquel Creek, which flows past the Hotel, is well stocked with TROUT and in the Winter Season, large, fine SALMON are caught in great numbers, while at the mouth of the Creek, a beautiful BEACH makes one of the finest BATHING RESORTS on the Coast.

There is excellent Deer and Quail hunting in the different mountain canyons bordering on the Creek, and the scenery is grand beyond description.

The Watsonville and Santa Cruz Stages pass here daily; also Stages twice a day from Soquel to Santa Cruz, direct.

A fine Stable is connected with the Hotel.

Every attention will be paid to the comfort of Guests.

T. W. MANN.

OCEAN VIEW

This place being on the Eastern bluff of the San Lorenzo River, some forty feet above the tide water, commands an

UNOBSTRUCTED VIEW OF THE OCEAN

MONTEREY BAY AND MOUNTAINS,

The city of Santa Cruz, with its back-ground of gently rising hills, the fertile plains on the North and East, and the towering mountains beyond; presenting to the eye, in every direction, so pleasing a scenery, so diversified with Bay and Mountains, Ocean and River, City and Hamlet, Hill and Plain,

as to be

UNSURPASSED IN BEAUTY

By any place in the County of Santa Cruz.

THE HOUSE IS WELL FURNISHED

Rooms large and convenient, and so arranged that they may be occupied either singly or in suits. Several cottages conveniently located on the premises, are about to be erected for the use of such families as may desire them. Ocean

View is within ten minutes walk of the

Surf Bathing and Bath Houses,

From which place omnibuses run to and from the City, every half hour of the day. The premises of Ocean View run down to the river's edge, affording excellent privileges for

BOATING & FISHING, OR RIVER BATHING

While the proprietor would gratefully acknowledge his obligations to those who have already patronized his house, he would also respectfully solicit the patronage of the health and pleasure-seeking community who may visit our city; assuring them that no pains shall be spared to render their stay pleasant and profitable.

Geo. H. Bliss,

PROPRIETOR.

P. O. Box, 106, Santa Cruz.

PERFUMERIES, DRUGS, PAINTS, OILS, &c. SOQUEL, SANTA CRUZ CO.,

CALIFORNIA.

A GENERAL DESCRIPTION

OF

SAN MATEO COUNTY.

SAN MATEO COUNTY is bounded on the North by San Francisco County; on the South by Santa Cruz County; on the East by San Francisco Bay and Santa Clara County; and on the West by the Pacific Ocean.

San Mateo County occupies almost the entire Peninsula, separating the Bay of San Francisco from the Pacific Ocean.

It formed a portion of the County of San Francisco until 1856, when a division was effected, and San Mateo and San Francisco became separate County organizations.

It covers an area of about five hundred and twenty square miles; being forty miles in length, with a breadth averaging thirteen miles.

It contains an excess of 300,000 acres, nearly the whole of which is improved farm land, susceptible of the highest degree of cultivation.

A branch of the Gavilan Mountains traverses the County from North to South, bearing the name of the Sierra Moreno, varying in altitude from 1,500 to 3,000 feet.

They form two slopes, the one upon the East emptying its surplus waters into the Bay of San Francisco; the one upon the West into the Pacific Ocean.

In the Southern portion of the County, these mountains are rugged and precipitious, and are covered with prolific growths of redwood and oak.

Among the most valuable agricultural portions of the County, are two benches, formed by some volcanic upheaval.

One of these plateaus lies along the Bay of San Francisco, and is from two to five miles in width. The other has a length of ten miles, by a breadth of one, and is in the vicinity of Half Moon Bay.

This land possesses great fertility and produces fine crops of cereals.

Many small tracts and little valleys in the mountains, are carefully tilled, yielding abundant harvests of grain, and producing luxuriant growths of fruit and vegetables.

In the number of cows she milks and the amount of vegetables she produces, San Mateo is prodigious, and were her demise to be sudden, San Francisco would be obliged to drink its cafe noir and import its vegetables from Alameda and Coffy's Cove.

The stock-feeding facilities here are unsurpassed. The heavy ocean fogs condense upon the upland slopes, preserving for the pasturage an almost perrenial greenness. The grass there preserves its nutritious properties long after that of the valleys has become embrowned and withered. The convenience to the great market of San Francisco also proves of great advantage to dairymen.

The vegetable gardening interest of the County is almost entirely monopolized by the sons of "sunny Italy," who seem far better adapted to this pursuit than to any, save those of begging and chestnut peddling. They not only have the largest gardens in the county, but also the best.

Lying so contiguous to San Francisco, San Mateo County sustains to it the same relation which Orange, N. J., sustains to the City of New York. It is the home of her merchant princes, the men of mercantile bone and sinew, the vitalizing element of Commerce, the exemplars of energy, enterprise and thrift. The men who regulate the monetary pulse, and change at will its throb into a three, or its three into a three.

Here are the private establishments of gentlemen, which rival in the magnificence of their appointments, the castles, chateaus, and manor houses of the nobility of Europe. Money, taste, and skill have lent their aid, which has proved efficacious, rendering the natural beauties so surpassingly levely that embellishment can proceed no farther, and lend no added charms.

The climate is mild and less humid than that of San Francisco, and the fogs, continually prevalent at the northern extremity of the peninsula, are very rare visitants here.

San Mateo may be considered more fully developed, in all its resources, than almost any County in the State. The Railroad, passing through nearly its entire length, has been one of the developing influences, and probably the greatest one. It placed it in open communication, and made it accessible to a large city already feeling itself cramped for space. This bestowed upon it a large population drawn from the wealthiest circles of the community. With this influx, the demand for land wonderfully augumented its value, and the securing of so much wealth within its boundaries, secured also a rapid development of its resources.

The people of this County are much interested in a projected narrow-gauge railroad, for the early construction of which everything is thought to be favorably disposed.

The proposed route is along the coast, connecting with the projected road from Hollister, for which surveys have already been made as far as Elk Horn Slough, a distance of nearly twenty-one miles. The Salinas and Santa Cruz roads, it is thought, will be certain to connect with this, that is the projected one connecting Santa Cruz with Watsonville, and the one connecting Monterey with Salinas.

The combined interests of these roads, this connection being established, will demand connection with San Francisco.

From the town of Santa Cruz to the boundary of San Francisco County, the entire country is rich in resources, only partially developed. To pave the way toward development, therefore, a road is greatly needed, and the impetus which will thus be given to all the industries, will greatly enrich this region of country, will return an ample interest upon the amount invested, and will, indirectly, prove of benefit to the State.

Here are vast tracts of agricultural land, fertile in the extreme, comparatively little of which will be tilled until some means of exportation is devised, which shall subserve the two ends of economy and expedition.

Timber is also abundant. Large forests of redwood and oak remain untouched, inviting the destroying arm of the woodsman.

Lime rock and granite quarries, also wait for the day of cheap transportation to give their wealth of material to the builder, to be fashioned into homes for the thousands flocking hither.

The lime rock quarries, especially, are favorably located, in close proximity to wood and water, and when the product from this quarter is placed upon the San Francisco market, will no doubt greatly cheapen the needful commodity.

Shipping by water is out of the question, the rate being too exhorbitant, from the class of vessels which must be used. Such vessels cannot be employed for this service, as are engaged upon the bay. A greater tonnage is required, and sea-worthy crafts alone can be employed to encounter the ocean storms.

The coast road will not conflict with the interests of the Southern Pacific, nor will the competition preclude the possibility of fair profits to both. Each will tap a section of country abounding in wealth, and there will be sufficient business for each without their trenching, one upon the other.

The passenger travel by this route, too, will be large, the entire line passing through a country abounding in magnificent scenery.

Along this line towns will spring up, and a large accession to the population will be obtained. Articles of incorporation of a new company, entitled: The Pigeon Point and Pescadero Railroad Company, have been recently filed, the objects of the corporation being to build, equip and manage a narrow-gauge railroad, to be operated by steam or horse-power, as the business may warrant.

This is to connect, from the high-water mark at the Pigeon Point landing, with the town of Pescadero, San Mateo County.

The length of the road will be seven miles.

The capital stock of the Company is fixed at \$70,000, divided into 700 shares.

Many prominent gentlemen of the County are connected with this enterprise.

The survey for the road was commenced some time since.

In visiting San Mateo County from San Francisco, with a private conveyance, one has the choice of two roads, both excellent, but differing widely in character.

One, the Bay View road, follows the conformation of the coast, is cut from the lateral faces of the cliffs, is undulating and tortuous, and is almost laved by the waters of the bay.

The other passes through a slightly rolling country whose scenery has no wildness or grandeur about it, but is entirely pastoral in its nature. The two roads merge into one, at or in the vicinity of San Bruno.

The chief resources of San Mateo County are grain and lumber.

It has several water and steam-power, lumber, shingle and grist mills.

REDWOOD CITY,

the County Seat, is about twenty-eight miles South from San Francisco.

It is situated on the edge of a broad plain, extending from an estuary of San Francisco Bay, through which passes Redwood Creek, navigable for a short distance by schooners drawing not above seven feet of water.

This plain is but slightly elevated above the tide water level, large portions of it being salt marsh.

Nearly all of this is under cultivation. Toward the mountains the rise is perceptible, yet very gradual.

The city founded in 1851, contains many good stores, and a large number of fine buildings, both public and private. It has between 12 and 13,000 inhabitants.

The assessed value of its real estate is \$6,713,657.

The schools are said to be ably superintended. The system of grades has also been introduced here.

There are five churches, viz: a Congregational, Baptist, Methodist, Episcopal and Catholic.

A fine hall, owned by Martin Kuck, holds out inducements to concertizing, parties or dramatic troupes which may penetrate the interior. This hall is well appointed and arranged, and has a large seating capacity.

The entire number of schools in the County, is 25.

During the election of 1874 the full number of votes cast in the County, was 1,357.

The county paper, the San Mateo Gazette, is published here. It is an able, fearless sheet, having the welfare of the county for its banner cry. It is quite well supported, having a large circulation, but should be still more liberally patronized.

Very many beautiful private residences adorn the town.

It is the chief shipping port of the county; large quantities of redwood, lumber, firewood, grain, flour, fruit, vegetables, milk, butter, cheese and other produce, are sent to the San Francisco market from here.

Redwood City is quite an attractive place. The hotels, in order to reap the fullest benefits which might accrue to them from their business, need to employ a little more courtesy, and evince a trifle more enterprise.

Their fare is far less amenable to criticism than their deportment.

SAN MATEO

Is a small station on the line of the S. P. R. R.

It is in a fine agricultural section with a population aggregating about 400.

It has few business interests, is provided with two livery and feed stables, two general stores, two saloons, a restaurant, hotel, boarding house, tin shop, tailor, harness and blacksmith shop, also a drug store, butcher shop, paint shop, and carriage manufactory.

Alvinza Hayward, the successful mining operator, who was also a prominent business man of San Francisco, when that city was in its infancy, has made his home here, where he has a very fine residence, with tastefully laid out grounds.

There are three churches in the town, an Episcopal, Congregational and Catholic. Also good public schools.

The Episcopal Military School conducted by Mr. Brewer, is highly spoken of.

Miss Buckmaster's school for young ladies, is also a fine institution.

The San Mateo Times, a paper thoroughly alive to all neighborhood interests, is published here. The proprietor is an energetic business man, and a courteous gentleman.

From San Mateo the stage road follows the charming canyon of the San Mateo Creek, through the hills, four miles, to

CRYSTAL SPRINGS,

Where a number of springs of clear, cold water break through the rocks.

These springs are one of the favorite resorts of San Franciscans. The approach is by a capital road, and the surrounding scenery is very fine.

From Crystal Springs the road passes over a spur of the Sierra Moreno to Half Moon Bay, or Spanish Town, as the village at that place is termed.

Nothing can exceed the exquisite beauty of the scenery and the grandeur of the view along this part of the road.

The Bay of San Francisco, the mountains and valleys of Alameda and Contra Costa, Monte Diablo, the smiling valley of Santa Clara, the valley of San Andreas, and the lovely Cañada del Ramundo are seen toward the East, while upon the West the traveler looks down upon the blue Pacific, the bold shores of San Mateo, and the distant mountains of Santa Cruz. The road winds along steep precipices, hundreds of feet in depth, and affords at every turn new and delightful views of the most pleasing scenery imaginable.

HALF MOON BAY

Is about twenty miles North-west from Redwood City, on the opposite side of the Peninsula.

It is the shipping point for grain, and all kinds of produce and lumber, from this portion of the Coast to San Francisco.

It is forty-six miles South of San Francisco, and is of little importance as a harbor.

Spanish Town is quite a thriving little business place, located at the landing on this Bay.

From Spanish Town the road runs through the rich farming country of San Mateo, and along the shores of the Pacific, eighteen miles to Pescadero, crossing in its way numerous mountain streams, ascending and descending many bold hills, from which can be obtained a beautiful view of sea and land.

PESCADERO

Is situated in the centre of a beautiful and productive little valley. It is sheltered by high, picturesque hills, is but a short distance from the ocean, and offers unlimited attractions to the tourist and health seeker.

The mountain streams in the vicinity swarm with trout; the forests which clothe the neighboring mountains, abound with game of every description, and the salmon trout and sea fish afford the best of sport to the angler.

The Pebble Beach is famous, and of wondrous beauty and brilliancy are the pebbles, agates, cornelians, opals, etc., found there.

The Sea Beach, and the unrivalled Moss Beach, are also chief among the attractions of Pescadero.

The vicinity is amply provided with delightful drives and picnic resorts, while the climate presents a pleasurable mean between the chilly breezes and saturating fogs of San Francisco, and the dry heat of the interior valleys of the State.

The hotel accommodations of Pescadero are unsurpassed by any in the State. Travelers, whether in search of health or recreation, will realize in the extensive establishment of Mr. Swanton, none of the annoyances which beset one in country houses of entertainment. The character and manner of conducting the hotel are entirely cosmopolitan, the utmost liberality is apparant in the provisions made for guests, and the place is almost always enlivened with a gay and brilliant throng from the metropolis. Several cottages, beautifully furnished and appointed, induce and attract the occupation of families.

The grounds are tastefully disposed. Drives and promenades cross and recross one another, at all possible angles. Shade and ornamental trees, plashing fountains and beautiful parterres of rare exotics lend such positive and sufficient attractions that, be he ever so asthetically inclined, one has nothing left, in his immediate surroundings, either to long for or desire. Visitors will find that it requires some time to exhaust the resources of this vicinity.

PURISSIMA

Is an unimportant hamlet, some thirty miles Southwest from Redwood City, containing a store, hotel, saloon and harness shop.

SAN GREGORIO,

Twenty miles South from Redwood City, resembles an ordinary town, viewed through the reversed lenses of a telescope.

BELMONT.

Four miles North from Redwood City, comprises within its limits, a hotel, store and saloon, a feed and livery stable and several residences. This is quite an enterprising little business place, and possesses many attractions.

MENLO PARK

Possesses many advantages as a place of residence; as far as its business element is concerned, it is a village of Rip Van Winkles.

One of the most beautiful places in the entire Coast Range, is the Canada del Reymundo, situate nearly in the centre of the County. It is completely enclosed by gigantic mountains, and is of an area of about twelve square miles.

Redwood, live oak, maple, laurel and madroña cover the higher peaks, nearly to their summits, while the lower hills are overgrown with alder willow and buckeye. Every patch, level enough to afford the cultivator an opportunity, has been seized upon, and is either a grain field or meadow; either a garden, or orchard.

Cottages peer out from picturesque nooks, occupy odd angles, or remain unsuspected by the careless rambler, actually embowered in their living green.

The murmur of running water and the sweet music of myriads of birds mingle in harmonious melody. The scene is impressive and beautiful. The secluded vale, skirted by frowning mountains, is peopled with a solid phalanx of sombre figures, which sway and rustle in the fitful breeze.

And then the silence, to him who has left the uproar of a great city only two hours' ride behind! Naught is heard but the purl of the stream as it flows evenly along, and its murmur, of complaint, perhaps, when it is turned aside by a pebble it cannot surmount; the music of the thicket warblers, too, which only succeeds in making the stillness yet more profound: beyond this a quiet as deep and solemn as death, a hush as perfect as though Nature herself were brooding, and the flat for creation had not yet gone forth.

This entire mountain glen was included in a grant made by the Mexican Government to John Coppinger, one of the early settlers. It has since been divided, is now owned in farms, and forms one of the most important farming and stock-raising districts in the County. San Andreas, a valley near the head waters of San Mateo Creek, is a similar but somewhat smaller valley.

Pillarcitos Creek, in this County, furnishes the greater portion of the water used for domestic purposes in San Francisco. It is conveyed in iron pipes a distance of twenty miles.

The Spring Valley Water Company has constructed extensive works in Pillarcitos Canyon for the purpose of collecting and distributing this water. Their dam has formed a beautiful lake, two miles in length by an average width of about one thousand feet. It is surrounded by precipitous hills, and is a most attractive spot, within convenient distance from San Francisco.

The dam crosses the canyon at a point where it makes a short curve; it is five hundred and forty feet long at the top, and three hundred feet at the bottom; four hundred and fifty feet thick at the base, and twenty feet thick at a height of ninety-six feet. The water inclosed by it is of an average depth of fifty feet, but is nearly one hundred feet in some places.

The quantity of water collected amounts to 1,300,000,000 gallons. Granting San Francisco a population of 200,000, each inhabitant would be obliged to use 17\frac{3}{4} gallons per day for one year, in order to exhaust this supply.

This body of water is 630 feet above the level of Montgomery Street, so that by mere pressure the supply can be extended over any portion of the city.

The geological formation in the vicinity of this lake being chiefly granite, lime-stone and indurated slate, the water is generally clear, but to insure purity, it is passed through beds of sand, gravel and charcoal before distribution.

The Corte Madera Water Company's works are located in the foot-hills, about seven miles West of Redwood City, where they collect the waters of Bear Gulch, a branch of the San Francisquito. Their reservoir holds 30,000,000 gallons of water, and supplies Redwood City and Menlo Park.

By the census of 1870, San Mateo is accredited with a population of 6,635.

For homestead purposes, this county meets every want.

It will, some day in the future, be densely populated, and the entire character of the county will undergo a change. The city of San Francisco is, and will be subject to continued and rapid growth. The northern portion of the peninsula offers no territorial opportunities; the full tide of overflow must, then, set toward the southern extremity of the peninsula, and San Mateo, from an environ will become a suburb, from a suburb will be merged in the metropolis.

The palatial residences which rear their white walls amidst the fairest of landscapes, will be superseded by the compact structures of the mercantile world. The quiet, dreamy hush of the rural district will give place to the hum and buzz of the business centre. The beautiful lawns and private grounds will be transformed into parks and pleasure gardens, or will subserve the ends of the manufacturer and mechanic.

All this is within the range of the possibilities, and though a long interval of years must elapse first, yet with no calamity, but with the addition of the steady increase of the past few years, a few decades only are necessary to realize the change.

Wood's Patent Cylinder GOPHER TRAP

Five Year's of Unparalleled Success!

NONE NAME IT BUT TO PRAISE.

Thousands are now in use all along the Pacific Coast, and we might print hundreds of testimonials from the hardware wholesalers of San Francisco, the retailers throughout the country, and the users of them, but deem it useless, as the best recommendation is a trial according to the following:

HOW TO SET AND TSE THE TRAP.

Push the spring door back until it passes the end of the rod—which it will do only when the back end of the rod is down close to the back of the trap—then also push down the front end of the rod until the back end rises to the shoulder on the inside of the back door, on which let it rest but very little, in order that it may be SET LIGHT, or so it will spring easily.

Whenever fresh dirt is thrown up, dig until the open HORIZONTAL hole is exposed, then place the trap WHOLLY in, and set a BOARD at an angle behind the trap, and cover with dirt in such a manner as to form a DARK CHAMBER behind the trap, which the animal invariably tries to fill, and thus springs the trap.

If the hole is extra large, use No. 2, but in most cases No. 1 is as large as the hole.

OPRICES.

No. 1 Trap,

\$13.50 per dozen. No. 2 Trap, \$18.00 per dozen.

Extra Springs, 5 Cents each.

For Sale by all the Hardware Dealers in the State, and Wholesale by

HAMILTON

SAN FRANCISCO and SACRAMENTO.

R. E. WOOD, PATENTEE, SANTA CRUZ.

NEW HOTEL!

MONTEREY.

MONTEREY COUNTY, CAL.

JAMES G. COLMISNEL, - PROPRIETOR.

The above-named gentleman, having remodeled the "Leese" residence, has fitted and furnished it as a first-class hotel, where he promises to give unexceptionable entertainment to all who call upon him.

The table will be provided with every seasonable luxury.

The room and bed furniture is all new, and of a superior quality. A magnificent view can be obtained, from the verandah, of the Bay and surrounding scenery.

TAFT'S STAGE LINE

From San Mateo to Pescadero.

ANDREW TAFT, Proprietor.

This Stage leaves San Mateo Daily, at 9:45 A. M. On the return trip, it connects with the train for San Francisco, 4:23 P. M.

The points passed are as follows: Crystal Springs, Summit View, Bay and Ocean View, Half Moon Bay, Purissima, Lobetus and San Gregorio. From Half Moon Bay to Pescadero, the road is over the smooth and level Sea Beach, making a magnificent drive.

The STOCK and COACHES are unexceptionable, and the Drivers experienced,

N. P. INGALLS.

ANDREW TAFT.

SAN MATEO AND SANTA CRUZ

STAGE LINE,

TAFT & INGALLS, PROPRIETORS.

These Stages leave Pescadero at 8 A. M., arriving in Santa Cruz at 4 P. M.; Leaving Santa Cruz at 8 A. M., on the day following, they reach Pescadero at 4 P M.

From Pescadero, the places passed "en route" are, Pigeon Point, Point New Years, Sea Side, Laurel Grove, Berry's Falls, Davenport's Landing, Williams' Landing and Hall's Natural Bridge.

At many parts of the road the Scenery is noticeably fine, the Roads are excellent, and in the well-appointed "Conveyances" of this Company, and behind their Spirited Horses, the ride is exhilarating and pleasant. This trip cannot but prove satisfactory to anyone undertaking it.

SWANTON HOUSE,

PESCADERO,

SAN MATEO COUNTY, CAL.

Pescadero is thirty miles from San Mateo; fifty-two miles from San Francisco; and is one of the most delightful places of resort for health or recreation on the Pacific Coast.

It is surrounded with beautiful drives. Its beach, strewn with moss, sprinkled with pebbles and shells, forms a glorious promenade; while for hunting and fishing, no locality offers such abundant inducements.

Nor are its hotel accommodations at all inferior to any of its other advantages; as in the SWANTON HOUSE, we find a hotel, in every respect, of the first-class.

It has apartments luxuriously furnished; a table loaded to repletion with delicacies; and romantically situated cottages, for the use of families and parties.

Here board can be had at from \$10 to \$12 per week, and every possible attention and courtesy which can administer to one's comfort, is assured by the genial host,

C. W. SWANTON, Proprietor.

Residence & Tannery A. T. PLATH FOR SALE!

Redwood City, San Mateo Co., Cal.

The entire property consists of eleven lots, all fronting on streets.

It is but a short distance from the railroad. with the best water connection with San Fran-

The residence contains six rooms. Immedi-

ately connected with it, is a small orchard and pleasant garden. Necessary barns and outbuildings also exist.

The Tannery is in splendid condition, and

the machinery used is nearly new. At present the Tannery turns out 280 hides per month. The bark-house will hold 500 cords of bark. Water is supplied in abundance from an artesian well on the premises.

Terms of Sale-Part cash, balance secured by mortgage. Possession given immediately. Address personally or by letter.

All the Rooms are comfortably furnished, and the Table is supplied with the best the market affords.

All the choicest Brands of Liquors and Cigars kept at the Bar.

George McKeever.

Residence & Tannery A. T. PLATH FOR SALE !

Redwood City, San Mateo Co., Cal.

The entire property consists of eleven lots, all fronting on streets.

It is but a short distance from the railroad. with the best water connection with San Francisco.

The residence contains six rooms. Immediately connected with it, is a small orchard and pleasant garden. Necessary barns and out-buildings also exist.

The Tannery is in splendid condition, and the machinery used is nearly new. At present the Tannery turns out 280 hides per month. The bark-house will hold 500 cords of bark. Water is supplied in abundance from an artesian well on the premises.

Terms of Sale-Part cash, balance secured by mortgage. Possession given immediately. Address personally or by letter.

JOSEPH KREIG, Proprietor,

REDWOOD CITY.

PIONEER

CURTIS BAIRD, Proprietor. REDWOOD CITY.

San Mateo County, Cal.

VINE HILL

VINEYARD

SANTA CRUZ COUNTY, CAL.

GEO. M. JARVIS,

PROPRIETOR.

This famous Vineyard is on the South side of the Coast Range of mountains, about twelve hundred feet above the sea, and some ten miles distant from it. The climate is the best in the state. The view from the residence of Mr. Jarvis, embracing within its scope over ninety miles of land and sea, is pronounced by travelers to fully equal in picturesqueness the view from Vesuvius of the Bay of Naples.

The estate contains four hundred acres, of which about one hundred are devoted to the growth of fruits, nuts, etc., etc., the grape being the main product, yet Apples, Pears, Peaches, Plums, Nectarines, Quinces, Cherries, Figs, Almonds, Chestnuts, Limes, Pomegranates and Oranges thrive, and bear abundantly in the open air.

The Proprietor uses great care in the manufacture of his

WINE & BRANDY.

Having the best possible location, and having planted nothing but the choicest varieties of grapes, for Wine-making purposes, his advantages are superior. His cellars are very large, and are stocked with

GRAPE, APPLE, PEACH AND CHERRY Brandies. with

PORT, SHERRY, MUSCATELLE, ANJOULEME, CLARET,

BURGUNDY, WHITE WINE AND WINE VINEGAR.

He invites the inspection of the **TRADE** and **PUBLIC** generally to his large stock, and assures all visitors a hearty welcome.

DR. BARLOW J. SMITH'S

REFORM

Medical and Surgical Institute,

635 and 637 CALIFORNIA STREET,

ABOVE KEARNY.

BY COMBINING MEDICINES, SURGERY, Hygiene, Water Treatment, Electro-Magnetic Motorpathy, and the INHALATION OF MEDICINAL OXYGEN, etc., offers advantages nowhere else to be found on the Pacific Coast for the rapid and permanent cure of Rheumatism, Neuralgia, Lung, Liver and Kidney affections, and also for the successful treatment of all vital nervous and muscular debilities, as well as all acute and chronic diseases peculiar to males and females. Its Dietary department is arranged with special reference to the health interests of boarders and patients.

The newly invented adjustable Horse-Shoe Magnet, is the most powerful remedial agent now known to modern medical science, for relieving all Spinal Complaints, and overcoming congested and diseased parts. Its effects in the treatment of Rheumatism, Neuralgia, Gouty Conditions and Paralysis are truly magical. Before its power Tumors and Glandular Swellings rapidly disappear; through its agency nervous organisms are revitalized, debilitated systems rapidly restored, and all muscular powers are wonderfully energized.

We claim with the above means and appliances, and also others which it is not necessary to mention, to cure the great majority of those who fail to obtain relief or cure by any former course of medication, and we challenge any party or parties to gainsay or compete with us. The mortality reports of the city will prove that not one death per year has occurred under our treatment during the last sixteen years. This unparalleled record speaks for itself.

The principles upon which this Institution are based, are broad and democratic, meeting the

The principles upon which this Institution are based, are broad and democratic, meeting the wants of the masses, bringing not only a great variety of nature's remedies to bear in the cure of disease, but those instructions that the people need to protect them from the causes of disease and in the maintenance of health when they have been cured. The people sicken, suffer and die on all hands because of medical aristocracy. Were the principles adopted and the means employed that we advocate and use, at least one-half of all that prematurely die from disease would be saved, and three-fourths of the present sickness and suffering would be prevented. While these important facts will be ignored by the general medical profession, we opine that not an enlightened physician can be found who would dare in any public manner to attempt to disprove the above statements. We respectfully invite the attention of all gentlemen and ladies needing medical asistance, to the advantages of our Health Institute. From four to six weeks' treatment will effectually and permanently cure the majority who need medical aid in this city and country.

DR. SMITH gives Free Lectures to Gentlemen every Friday evening, in the Hall of the

Institute, on all topics relating to health of mind and body.

Baths administered from 8 A. M. to 6 P. M.; on Sundays, from 8 to 12.

Consultations Free.

CAST AND WROUGHT SCRAP BOUGHT AT THE FACTORY.

Friel's Paragon Vapor Stove Burner.

The Great Labor-saver of the Household.

Economy, Convenience and Safety Combined.

Just think of it!— No wood, no coal, no coal gas, no stovepipe, no chimney, no smoke, no ashes, no dirt, no wood boxes, no coal scuttles, no kindling wood, but a friction match, and the Fire in full blast in half a minute! OVEN HOT in 2 minutes!

Steak broiled in 7 minutes! Baked Beans in 30 minutes! The fire extinguished in a moment! and the house unheated! It has no rival in all kinds of cooking and flat-iron heating, and combines economy, convenience, neatness, safety and durability! The Ladies welcome it. A little child can operate it, and ALL RECOMMEND IT! Prices from \$6 to \$25, according to size.

Manufactured and Sold by WM. FRIEL, 69 and 71 Fourth Street, San Francisco.

SACRAMENTO, September 29, 1874.

This is to certify, that at the STATE FAIR of California, for the year 1874, WILLIAM FRIEL was awarded the FIRST Premium for his valuable invention, the PARAGON VAPOR STOVE BURNER.
